

Preventing Auto Losses

A Reminder of Fleet Resources available through ORCIG

Dear Valued Client,

Auto incidents continue to remain a concern in the construction industry nation wide. We put together this SafeAlert as a reminder of some of the resources available to you through ORCIG which can help aid in the reduction and prevention of auto incidents within your company. Should you have any further questions, please contact your Safety Specialist.

SafeALERTSM

ORCIG 2019 SafeAlert Series

Fleet Controls (Vendor Discounts through ORCIG):

- ◇ Lytx Drivecam

Discounted driver safety technology from Lytx Drivecam. Lytx is a video telematics and safety program that combines video-based coaching with predictive analytics to improve driver behaviors and help reduce fleet risk. <https://www.orcig.com/safety-and-loss-prevention/client-resources/lytx>

- ◇ CellControl

Discounted driver safety technology from CellControl. Cellcontrol is an easy solution to stop all mobile device distractions, including texts, phone calls, emails and web browsing. Emergency calls (911) are always allowed through the system, and fleet administrators can decide which mobile functions to allow. <https://www.cellcontrol.com/orcig>
