

Honda Recalls Generators due to Fire and Burn Hazard

Recall Date: March 17, 2020

Units: About 340,000

Honda has issued a recall of the following generators:

- Honda EB2200i, EU2200i, EU2200i
- Companion and EU2200i Camo Portable Generators

The portable generator’s inverter assembly can short circuit with the presence of salt water. This causes the unit to catch fire, posing fire and burn hazards to consumers. This recall involves Honda EB2200i, EU2200i, EU2200i Companion and EU2200i Camo portable generators. The recalled portable generators were sold with a red or Camo cover. The name “HONDA” and the generator model name are printed on the control panel. The serial number is located on a lower corner of one of the side panels of the generator. The model names and serial number ranges that are being recalled:

Model Name	Serial Number Range
EB2200i	EAJT -1000001 thru 1011342
EU2200i	EAMT-1000001 thru 2098790
EU2200i Companion	EAMT-1000001 thru 2098790
EU2200i Camo	EAMT-1000001 thru 2098790

Incidents/Injuries:

Honda has received 13 reports of the generator’s inverter assembly short-circuiting while in use, including 10 reports of fire. No injuries or property damage reported.

SafeALERTSM

ORCIG 2020 SafeAlert Series
