

Leviton Manufacturing Recalls Electrical Connection Devices Due to Shock Hazard

Recall Date: April 23, 2020

Recall Number: 20-112

Description: This recall involves Leviton 50-ampere, non-NEMA electrical connectors, plugs, receptacles and inlet attachment devices. The recalled connection devices are used to transmit power to electrical equipment that is not hard-wired to a power source. Leviton is printed on the devices. Date codes can be found on the back cover of connectors and plugs, the side housing of receptacles and inlets, and on the label of each box. About 98,000 units were sold in the U.S.A; and about 4,400 units were sold in Canada. The recall includes the model/catalog numbers and date codes listed on the following page.

Hazard: The electrical connection devices can have mislabeled terminal markings, posing an electrical shock hazard.

Incidents/Injuries: Leviton has received four reports of mismarked devices, including one report of a consumer who received an electrical shock, and three reports of minor property damage to equipment with which the devices were being used.

Sold At: Electrical distributors and online at www.Amazon.com from May 2019 through January 2020 for between \$40 and \$90.

Distributor(s): Leviton Manufacturing Co. Inc., of Melville, N.Y.

Manufactured In: Mexico

Remedy: Consumers should immediately stop using the recalled devices, disconnect power to them and contact Leviton to arrange for a free replacement device.

Contact Information: Call Leviton toll-free at 877-978-2032 from 8 a.m. to 6 p.m. ET Monday through Friday or online at www.Leviton.com and click on "Recall Information" for more information.
