

## Trench Safety Month

June 2020

The National Utility Contractors Association (NUCA) has declared June 2020 as the first annual “**Trench Safety Month**”. Trench safety is being emphasized through the educational programs available and the 2020 Trench Safety Stand-Down from June 15-19.

If trenching and excavation is part of your company’s operations, then you should consider participating in the stand-down event. This event will increase employee awareness of the dangers associated with trenching and excavation work. This will demonstrate your company’s continued commitment to your employee’s health and safety. The month of June will be used to promote and discuss the importance of employee safety for underground work in trenches and excavations.
