CHANGE MANAGEMENT

Mastering the X Factor in Business Transformation

2017 Overview & Outline

**Inteq Professional Business Analysis
Training Course Series**

CHANGE MANAGEMENT

Mastering the X Factor in Business Transformation

Regardless of innovative process improvement ideas, brilliantly engineered software, detailed project plans and deep executive sponsorship, business transformation initiatives (BPR,

I.T. modernization, etc.) often fail to deliver the intended transformational results.

An X Factor is a variable in a given situation that could have the most significant impact on the outcome. Change management at the individual, team and organization level is the X Factor in the success (or failure) in business transformation initiatives.

Change management is the people side of business transformation. Change simply does not happen by itself. Change needs to be cohesively and proactively managed. Change management integrates the transition of people, processes and technology from the current “as-is” state to a continually unfolding future state.

Change management deeply engages staff, supervisors, managers and leadership across the organization at all levels of the organization resulting in achieving project objectives and the realization of desired outcomes. Change management is indeed the X Factor in in successful and sustainable transformation.

Inteq's Change Management training course is your roadmap and playbook of techniques, skills and methods - gleaned from years of experience across the spectrum of business transformation and I.T. modernization projects - enabling you to successfully transition individuals, teams and organizations from the current as-is state to desired high-performing future states.

Inteq's business analysis training courses have emerged as the gold standard for professional business analysis training - and are simply the most effective business analysis training courses available in the industry.

Inteq's Change Management Training course is more than education; its transformation - for the participants, project teams and their organizations.

That's why over 300,000 business and systems analysis professionals worldwide choose Inteq's business analysis training courses.
