

**NEW!**

# VISION BOX™

***Key identification has never been easier with Hy-Ko's Vision Box!***

**VISION BOX**

- Helps associates narrow search and identify key blank
- Takes seconds to insert, scan and look up key in database
- Verifies that the new cut matches customer's original
- Can be used to maintain key cutting machine calibration

- Machine Footprint  
5.5" wide x 10.5" high x 16" deep
- 12 lbs (5.4kg)

## KZV-1000 VISION BOX

- Requires a separate computer running Hy-Ko proprietary software and USB connection
- Operates on a 12V power adapter
- Sturdy, robust equipment
- Patented optical design technology
- Field tested for 18 months

- Instills confidence in less experienced employees
- Reduces the instances experienced employees are needed to assist identification
- Reduces customer wait time for hard to identify keys
- Reduces erroneous turn aways
- Reduces miscut keys due to wrong blank
- Instills confidence in customers
