

WHAT WE DO

We build great Managed Futures portfolios with clients looking to access the managed futures space in a meaningful way. That's been our specialty for more than a decade, with our experienced team up to the challenge of finding unique managers to fit unique needs.

For Investors

Research & Educate

We believe education means more than just a glossy brochure showing how managed futures is non-correlated to the stock market. We believe it means ongoing analysis of what's happening now, not just what happened over the past decade; and we provide daily research and commentary via our popular 'Attain Alternatives' blog covering all things alternative investments, as well as periodic whitepapers digging deeper into topics, guest posts by fund managers, and more.

Scout Talent

You can think of us as talent scouts, helping investors scour the world of alternative investment opportunities in an effort to identify those with robust, consistent performance, sophisticated risk management processes, and well-developed operational infrastructure. This selection is done through our proprietary filtering algorithm before performing one-on-one meetings and "real-time due diligence" where we analyze daily trading.

Tailor Portfolios

Armed with a menu of talented managers, we then provide customized portfolio and strategy advice to better generate target returns and protect principal while meeting the diversification, return, and risk needs of investors ranging from high net worth individuals to pension funds. Clients invest in these portfolios by opening a brokerage account with us, where we earn a portion of the trade-by-trade costs and fees paid to the portfolio managers you enlist. There are never any add-on, portfolio-level fees for our services.

Make It Easier

We make the actual investment part, with the paperwork and funding and all the rest, as easy as possible. We do this by eschewing a 'one size fits all' approach in favor of a consultative approach where we work with clients to find solutions that work for them in terms of structuring the investment. These include vanilla individual futures accounts, to the creation of 'Funds of One' or direct access to managers. The choice of clearing firms considers the investor's requirements for credit rating, balance sheet, and more; while consideration is given to smart collateral options via T-Bills, Notes, Corp. Debt, & Stocks.

You should fully understand the risks associated with trading futures, options and retail off-exchange foreign currency transactions ("Forex") before making any trades. Trading futures, options, and Forex involves substantial risk of loss and is not suitable for all investors. You should carefully consider whether trading is suitable for you in light of your circumstances, knowledge, and financial resources. You may lose all or more than your initial investment. Past performance is not necessarily indicative of future results.

RCM Alternatives is a registered dba of Reliance Capital Markets II LLC.
