

See everyone on your jobs to make payment fast and easy.

See who is on your jobs

When you know who you're working with up and down the payment chain, payments move faster. Get info about others on your jobs so you can:

- Keep everyone in the loop
- Easily exchange documents
- Talk things out

Minimize risk on all fronts

Get accurate information on your jobs so you can get your documents to the right people to set expectations from the start and avoid bad outcomes like liens. Scout finds:

- Property owner, GC, and surety information
- Legal property description
- Project type

Project: Shopping center on corner of Topeka and W Hill

Property Address 1341 W Hill St, Pasadena, CA
Verified Legal Property Description [View](#)

Save time

Scout finds missing job information for you, and verifies the info you provide so you can focus on what's important to you. Never again waste time chasing down critical job details like owner information and legal property description.

- Access our comprehensive database of construction jobs
- Our team goes to work for you to find key information

Wondering **how** we research your jobs?

It all starts when you add to Levelset. Then Scout and our team of researchers look for information that matches your job and add it to your jobs in the Platform.

Level 1: Standard

Scout fills in missing property information using the most comprehensive database of construction jobs in the United States.

Level 2: Pro

A Scout Pro personally investigates your job using other advanced and exclusive sources of information to complete property information with over 98% accuracy.

Level 3: Ultimate

A Scout Pro will do everything possible via calls and emails to get in touch with people on your job and pin down hard-to-find information not available online such as GC and surety details.

Raider Painting saves **3 hours per project**

“Levelset’s Scout tool has direct access to property ownership info that is invaluable! They do the research on the property owner and other entities that you may not easily be able to locate otherwise.
