

COMMUNITY CHANGE FESTIVAL

SEPT 30 - OCT 3, 2019 • VANCOUVER, CANADA

The Community Change Festival will be an intensive learning experience. The conversation is no longer around *a new approach* to facing complex problems. People all across the country have learned from the past and have adopted new and innovative ways of working to address systems-level challenges. The conversation now is *do you have the skills and competencies to achieve success working in this way?*

We hope that through our time together - through our amazing faculty and guest contributors, a deep dive into our five Interconnected Practices, practical tool sessions, immersive city tours, daily inspiration and artistic showcases - that you will go back to your work equipped with the knowledge, perspective-shifts and practical tools that you need to face the challenges of today.

Monday: Grounding Your Work

Morning

- Plenary | You: A Changemaker, Now What?

Afternoon

- Plenary | Leveraging the 5 practice areas for community change
- Skills Session | Practice area workshops: Building your planning canvas
- Advanced Learning Stream Session 1: Concurrent with Skills session
