APPENDIX 1

Specific Question:

What literature is available in relation to the impact of poverty on early childhood development?

Additional foci include:

- Young families, young parents
- Social determinants of health
- Healthy development
- Birth outcomes, perinatal health, pregnancy
- Impacts of poverty
- Vulnerability
- Resilience
- Indigenous, Aboriginal, First Nations, Métis
- Immigrant, refugee

Details:

Requestor: Adrienne Montani, First Call

Date: Mon Sep 10, 2018 (received); Wed Sep 12, 2018 (lit search results provided to Pippa Rowcliffe)

Goal: To provide a select listing of literature on the topic of interest

Team: HELP (Pippa Rowcliffe; Michele Wiens)

Tasks: Rapid literature search (further searching/ retrieval on request)

Note: A listing of citations with abstracts can easily be provided, on request

Search Context:

First Call is interested in reviewing the recently published scientific and grey literature reports relating to the impacts of poverty on early childhood development (various aspects, e.g., low income and housing, neighbourhood, parenting).

Literature search objective:

To conduct a rapid literature search for articles related to search context items. Scientific articles and grey literature will be included. Articles will be identified through UBC EbscoHost (which will provide access to Medline, CINAHL, and Biomedical Reference Collection), Ovid (Embase), Web of Science, Google Scholar, and Google.

Geographic area of interest: British Columbia; Canada (although other regions are included in this list)

Limits: Date parameter: Emphasis 2015 - 2018 (the focus is on recent literature); English

PDFS:

URLs are included within the citations. PDFs can be provided on request.

Search Terms:

Variants and Boolean operator combinations of
("early child development" OR "early child development")

AND

- "young families" OR "young parent"
- "social determinants of health" OR "built environment" OR housing OR "food security" OR neighborhood

- “healthy development”
- “birth outcome” OR “perinatal health” OR pregnancy
- poverty OR “low income” OR low-income
- vulnerability OR vulnerable OR marginalized
- resilience OR resiliency
- Indigenous OR Aboriginal OR “First Nations” OR Métis
- immigrant OR refugee

Next Steps:

Provide results to Pippa Rowcliffe to share with Adrienne Montani. If more specific information is requested, scientific and grey literature may be scoped accordingly. Requestor may wish to undertake citation chaining through manual review of bibliographies

Endnote Library: see Child Development.enl (subgroup “poverty_ECD”)
