- Company value

## FOCUS AREAS

## PHASES

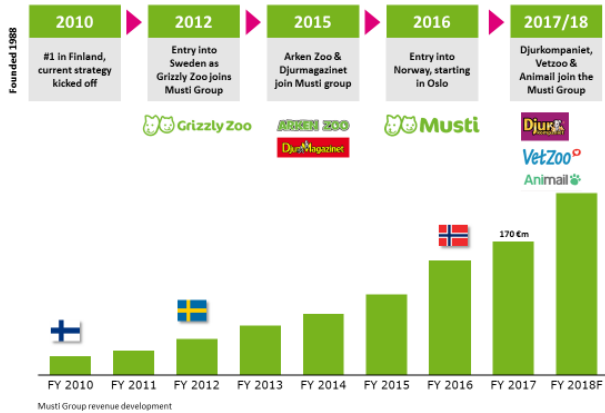

**Relax in Musti Group**

# Relax in Musti Group

## Our journey to Nordic market leadership

### Main drivers:

- Rapid sales growth, increased number of stores
- Availability, customer experience
- Resource constraints, efficiency targets

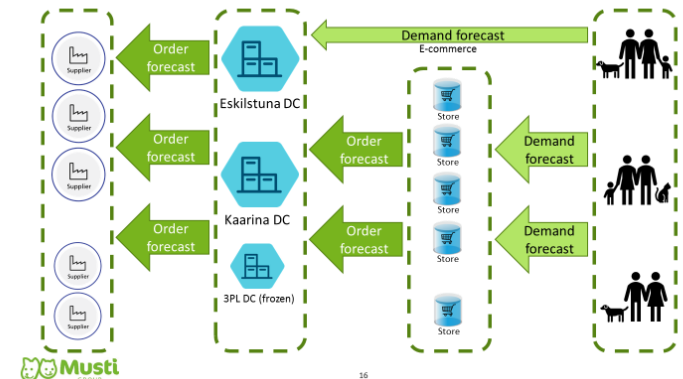

### Relax selected as the solution and partner

- Provide **reliable availability** for the customers
- Bring **efficiency**
- Enable **supply chain optimization**

# Ongoing activities with Relex

- **Integrated supply chain** by sharing the order forecasts with selected suppliers
- **Acquisitions** – onboarding new stores and warehouses as a continuous process
- **Roll out of targeted solutions** across the store network
- Introducing Relex for **frozen products**
- Improving **customer experience and efficiency in omnichannel**

Supply chain management with RELEX – forecast flow

# Key takeaways

- **Data quality**
- Inhouse **competences**
- **Operational model renewal**
- Set the **par high enough** – challenge yourself and Relex
- Drive strong **business case**

**Future potential**

# Potential future development

- Store **clustering**
- **Assortment planning** integrated to real time SCM data
- Semi **automatic planogramming** supported with SCM analytics sight
- Assortment and replenishment **collaboration between stores and centralized replenishment team**
- Delivery volumes in **work force optimization**

***Thank You!***
