Description

Specs

Media & Assets

Antwerp Police Department
Antwerp

Barco's LDX-46 display with LED backlights has been designed for use in a wide variety of professional applications. The LDX-46 produces crisp, bright and color-accurate images on a 46" screen size.

Featuring LED backlit LCD technology, the LDX-46 boasts a high brightness and durable LED backlight technology and provides an exceptionally thin and space-saving design. Available in native full high definition (1920 x 1080 pixels), the LDX-46 is a high-quality display for long-term usage.

Barco's LDX-46 combines the typical benefits of liquid crystal technology (such as low maintenance costs) with energy-efficient LED backlights, reducing image burn-in and colorations.

Wide viewing angle

The wide viewing angle (178°) and large surface are very beneficial in collaborative environments where detailed information is viewed by multiple participants.

Space-saving design

The LDX-46 is based on Edge LED technology, meaning that the LEDs are positioned around the outer rim of the screen. This technology provides the LDX-46 with an exceptionally thin and space-saving design. The display has been designed for easy installation of high-quality standalone applications or as a complementary visualization solution in modern control rooms.

High resolution

Barco's high-resolution LDX-46 shows large amounts of data in accurate and high-quality images. Any input source can be shown pixel-on-pixel, which avoids unnecessary scaling artifacts often found on lower-resolution displays. Combined with the displays' non-glossy professional LCD panel and Anti-Image Retention functionality, the LDX-46 delivers bright and crisp images that do full justice to high-resolution graphics and video.

Features

- High brightness
- High contrast
- Wide viewing angle
- High resolution and pixel density
- Frame lock
- Low power consumption
- Long lifetime
- Easy installation
- Space-saving design
- Eco-friendly

ELEKTRONISCHE VERKOOP

De dood van de rechterbalk

Het laatste jaar is volgens recente gebruikerstesten het surfgedrag van uw websitebezoekers sterk veranderd. Hoe zit dat?

Waarom een rechterbalk?

Heeft u een website met links het navigatiemenu, centraal de tekst en rechts een balk met knoppen? Zoals bijvoorbeeld <http://www.destandaard.be> en <http://www.delhaize-wineworld.com> Die rechterbalk bestaat uit de tijd dat de meeste surfers een schermresolutie hadden van 800 x 600, maar werd vooral populair met de doorbraak van grotere resoluties. Surfers stelden die rechterbalk zeer op prijs en er werd dan ook driftig doorgeklikt naar productinformatie, prijzen, enz. Experts verklaren dat met het feit dat muizen toen nog geen scrollwiel hadden. Een surfer moest om te scrollen dan rechts op het scherm de schuifbalk zoeken en het oog viel dan automatisch op de balk.

Volgens *Karl Gilis van AG Consult* maken recente gebruikerstesten echter duidelijk dat de rechterkolom steeds minder bekeken wordt en vaak zelfs contraproductief werkt.

Quality time

By "quality time," I mean giving someone your undivided attention. I don't mean sitting on the couch watching television together. When you spend time that way, Netflix or HBO has your attention — not your spouse. What I mean is sitting on the couch with the TV off, looking at each other and talking, devices put away, giving each other your undivided attention. It means taking a walk, just the two of you, or going out to eat and looking at each other and talking.

Time is a precious commodity. We all have multiple demands on our time, yet each of us has the exact same hours in a day. We can make the most of those hours by committing some of them to our spouse. If your mate's primary love language is [quality time](#), she simply wants you, being with her, spending time.

Receiving gifts

Almost everything ever written on the subject of love indicates that at the heart of love is the spirit of giving. All five love languages challenge us to give to our spouse, but for some, receiving gifts, visible symbols of love, speaks the loudest.

A gift is something you can hold in your hand and say, "Look, he was thinking of me," or, "She remembered me." You must be thinking of someone to give him or her a gift. The gift itself is a symbol of that thought. It doesn't matter whether it costs money. What is important is that you thought of him or her. And it is not the thought implanted only in the mind that counts but the thought expressed in actually securing the gift and giving it as the expression of love.

But what of the person who says, "I'm not a gift giver. I didn't receive many gifts growing up. I never learned how to select gifts. It doesn't come naturally for me." Congratulations, you have just made the first discovery in becoming a great lover. You and your spouse

Words of [affirmation](#) are one of the five basic love languages. Within that language, however, there are many dialects. All of the dialects have in common the use of words to affirm one's spouse. Psychologist William James said that possibly the deepest human need is the need to feel appreciated. Words of affirmation will meet that need in many individuals.

Every marriage has areas that are working well and areas that could use improvement. In order to have a healthy marriage, it's important to evaluate these areas and give them the attention they need. [Learn how you can grow and strengthen your marriage »](#)

YOU CAN'T PUT THEM IN TIME-OUT. YOU CAN'T TAKE AWAY THEIR CAR KEYS.

So, how can you effectively discipline your tween?

Once children reach the age of 10 or so, they begin to change. Not so much physically (that'll come later) but rather in their attitudes and interests, which start edging closer to those of an adult — with their own preteen spin. This usually requires parents to rethink and retool their approach to how they address and discipline their children's behaviors.

The parenting experts at Boys Town have developed this email series to help you better understand your tween and provide valuable advice on how to use skill-teaching, role-play practices, and positive and negative consequences to effectively discipline your tween. We'll also offer tips for setting appropriate boundaries and clear expectations, so everyone is on the same page when it comes to behavior issues.

Each week, you'll receive information and advice about tween issues and discipline, as well as a teaching activity and a social skill that you and your child can work on together to strengthen your relationship.

- Here are some of the lessons we'll cover:
- Dealing with Defiance
 - Peer Pressure
 - Setting Expectations and Boundaries
 - Positive Consequences

Open Letter to the Senate:

Confirm a Supreme Court Justice who will defend the Constitution

The nomination of Judge Kavanaugh *opens a door that may never be open to us again*. We have the opportunity to establish a Supreme Court that will interpret the law as the founding fathers intended.

The opposition will be fierce. Special interests and big-government cronies will try to influence the Senate and stop any nominee who respects the Constitution. They want a Supreme Court that pushes for **more regulations, restrictions on our freedoms, and crony politics**. They want a Court that rules in their political favor, instead of interpreting the laws as written.

It's time for the American people to step up and reject the political games and confirm a Constitutional Supreme Court Justice.

It's time to make your voice heard.

Confirm a Supreme Court Justice who will defend the Constitution

I believe Senators must do their job and not play political games with the confirmation of a Supreme Court Justice.

They must not be influenced by special interests and those who seek to subvert the proper rule of law with judicial activism.

They must not be persuaded by big-government cronies to nominate those who would seek to undermine equal rights under the law and our freedoms.

And they must never compromise our Constitutional rule of law to be "politically correct."

Do you agree that America needs a Constitutional Supreme Court Justice?

- I believe that the Supreme Court should interpret and defend the Constitution as it was written by the founders.
- I believe that the Supreme Court should not seek to subvert the proper rule of law with judicial activism.
- I believe that Supreme Court Justices should seek to act in a principled manner based on America's founding principles
- And they must never compromise our Constitutional rule of law to be "politically correct" or bend to cultural pressures.
