

Email2NetSuite

SuperSync Email2NetSuite Connector

Connect your email to NetSuite with SuperSync Email2NetSuite. Enable your sales team, project team, or accounting group to save any email to NetSuite and have it available for viewing in the future.

Skip all the complexity of other connectors, syncing errors, and problems. Use SuperSync Email2NetSuite to get all your relevant emails into NetSuite easily and show up on the proper records in the system.

Want to save the email? Just copy in NetSuite when sending.

SCS Cloud's Email-to-NetSuite connector allows anyone in your company to save any email to NetSuite simply by BCCing a unique email address.

Easily save emails to NetSuite simply by copying in a unique email address. Each email is auto-matched

Outlook/Gmail Integration

- Automatically copy emails to NetSuite
- Auto-link emails to contacts, customers and other records.
- Search in Outlook for contacts and customers
- Handle unmatched email exceptions directly in NetSuite
