

SuperSync Walmart to NetSuite Integration

Use the SuperSync Walmart > NetSuite connector to streamline the transfer of orders from Walmart to NetSuite, push tracking information back to Walmart, and sync inventory between the two systems.

The SuperSync Walmart connector provides a real-time connection between your Walmart website/s and NetSuite. With all orders flowing in from Walmart and all tracking information syncing back to Walmart when those orders are fulfilled, NetSuite becomes the central hub of data and SuperSync transports the information both ways.
