3. Agreed Value

When an automobile is appraised for agreed value coverage, the appraised value must be used to determine the symbol.

For model years 1980 and prior, with values of \$20,001 and above, the auto must be rated on an Agreed Value Basis in accordance with Rule 45. The insurer has the option to waive the requirement of obtaining an appraisal as required under Rule 45.

4. Equipment: Vans and Pick-ups

Except with respect to the coverage provided under Rule 47 for custom furnishings or custom equipment, the cost of any equipment installed in or upon a pick-up or van shall be added to the FOB List Price, Purchase Price or Appraisal Value in determining the applicable symbol.

B. Rating Vehicles with Symbols 18 and Above

For model years 1981 and after, to determine the physical damage premium for vehicle symbols 18 and above, apply the following factors to the premium shown for Symbol 17 and the applicable territory, class, and model year, before discounts are applied:

Symbol	Model Year 1989& Prior	Model Year 1990 & Subsequent
18	1.15	1.08
19	1.30	1.15
20	1.45	1.25
21	1.60	1.35
22		1.45
23		1.55
24		1.70
25		1.85
26		2.00

*Determine the physical damage premium for Symbol 27 vehicles by:

a) Increasing the factor for Symbol 26 by +.15 for each \$10,000 ~~or portion of \$10,000~~ above \$80,000 of the FOB List Price or Purchase Price, whichever is higher. **(For fractions of \$10,000, the incremental symbol factor will be determined by linear interpolation.)**

b) Applying this factor to the Symbol 17 premium shown in the Rate Pages for the applicable territory, class, and model year, before discounts are applied.

RULE 23. HIGH-THEFT VEHICLES

For certain model years, some makes and models are considered high-theft vehicles. These vehicles are identified as such in the Symbol and Identification Section of this Manual.

Any person who acquires ownership of a high-theft vehicle must have a Category III, Category IV or Category V anti-theft device or vehicle recovery system installed in the vehicle, otherwise the company may, at its option, charge an extra-risk rate, decline coverage, or cancel existing coverage.

New Business Rule

Any high-theft vehicle listed on a New Business Application which does not have an appropriate anti-theft device or vehicle recovery system shall be written at the extra-risk rate. If an appropriate device is installed within thirty days of the policy effective date, the extra-risk premium will be waived and the anti-theft discount will be allowed retroactive to policy inception. If an appropriate device is not installed within thirty days of policy inception, the company, at its election, may cancel Collision and Comprehensive or continue such coverage at the extra-risk rate.

A category III, IV, or V device installed more than thirty days after the policy effective date qualifies for the applicable discount, but the discount shall be calculated pro-rata from the date of installation. Any premium charged for an extra-risk rate shall be earned on a pro-rata basis.

RULE 24. EXTRA-RISK RATING (COLLISION AND COMPREHENSIVE)

The following circumstances require the application of the extra-risk rate if the company elects to write the coverage and the insurance to be provided is on a vehicle:

1. customarily driven by or owned by persons who have within the last five years been convicted of vehicular homicide, auto insurance related fraud, or auto theft.
2. customarily driven or owned by persons who have within the last three years, been convicted of any category of driving under the influence of alcohol or drugs.
3. customarily driven by or owned by persons who, within three years preceding the effective date of the policy, have been involved in four or more at-fault auto accidents. An at-fault auto accident is one in which the owner or any person who customarily drives the auto was more than 50% at fault.
