2017 Experience Group Rating Update Filing

We are filing our 2017 Experience Group Rating (EGR) update and symbol and identification pages for model year 2017, along with the corresponding 2017 EGR score groups.

We are also filing updated 2012-2016 EGR score group pages. These pages have changed because we have removed vehicles that were not made in 2012-2016 and we have added a few vehicles that were not included on the original 2012-2016 EGR factor pages. The score groups for the other vehicles have not changed.

With this filing, we are filing our updated 2012-2016 symbol pages. The 2012-2016 symbol pages have several vehicles added to them that were not on our latest set of pages, due to late price information. There are no other changes to these pages.

The vehicles being added for model year 2012 are:

BMW 750LI Alpina B7
Chevrolet Caprice
GMC Savana G15000 Incomplete Van
