

**RULE 19. DISCOUNTS** (continued)

The company may use information from the Vehicle Inspection System of the Registry of Motor Vehicles to verify annual mileage. The difference in the two most recent odometer readings reported by the Registry, if at least six months apart, shall be annualized to determine eligibility for the discount. If the Registry reports only one reading, which is more than six months before the application for the discount, the applicant may provide a current odometer reading on the Annual Mileage Discount Form, and the difference shall be annualized to determine eligibility.

If two odometer readings, at least six months apart, are not available to the company through the Registry of Motor Vehicles, the Annual Mileage Discount Form or other standard forms, the vehicle is not eligible for the annual mileage discount.

**3. Application of Discount**

The applicable discount applies to rates otherwise determined for each insured vehicle by coverage, limits purchased, territory, driver class, and model year and symbol prior to the application of the merit rating plan.

**F. Passive Restraint Discount**

A 25% discount of the premium paid for Parts 2, 3, 6 and 12 will be given to eligible policyholders for qualifying vehicles which contain occupant safety features. These features are: an airbag installed for either the driver's seating position or both front outboard designated seating positions or an automatic seatbelt installed for either the driver's seating positions or both front outboard designated seating positions.

**G. Advanced Driver Training**

A 5% credit will be applied to Parts 1, 2 and 4-9 where a premium is shown on the coverage selections page for a rated operator who has successfully completed an Advanced Driver Training Class. Advanced Driver Training classes must be recognized and approved by the MA RMV. A certificate of completion must be provided in order to apply the credit.

**H. Life Credit**

A premium credit of 5% will be applied to Parts 1, 2 and 4-9 when a named insured has a private passenger auto policy and a qualifying Life Insurance or Annuity policy with Harleysville.

Credit Eligibility:

1. Named insured listed on auto policy must match named insured on Life or Annuity policy.
2. Eligible Life / Annuity policies include: Harleysville Elite Term, Whole Life, Universal Life, Accumulator Deferred Annuity and Group Life.
3. This discount is in addition to any other applicable companion credits and applies only once regardless of the number of Life or Annuity policies in the household.
4. This credit will terminate at the first renewal following termination of the eligible Life or Annuity policy.

**I. Companion Credit**

A 10% Companion Credit shall be applied to Parts 1, 2 and 4-9 provided there is an in-force Homeowners policy in any Harleysville member company, the Massachusetts FAIR Plan, or another eligible company. The homeowner policy can be any owners form (HO 00 01, HO 00 02 or HO 00 03), a renters form (HO 00 04) or a condo form (HO 00 06).

**J. New Policyholder Discount**

**Applicable to policies written prior to 9/26/11. Not available for new policies written on or after 9/26/11.**

Newly Issued policies qualify for a New Policyholder Discount if each of the drivers on the policy is free of surcharged at-fault accidents and violations. This includes policies with a merit rating code of 00, 96, 97, 98 or 99. If a policy that has the New Policyholder Credit subsequently has a surcharged at-fault accident or violation, they will lose the New Policyholder Credit on the next renewal. As the New Policyholder Discount phases out, it is supplemented by the Customer Loyalty Credit discount assuring that policies that remain free of surchargeable accidents and violations will not see a net discount reduction. This credit applies to Parts 1, 2, 4 and 5-9.

- 5% First Policy Term
- 4% Second Policy Term
- 3% Third Policy Term
- 2% Fourth Policy Term
- 1% Fifth Policy Term
- 0% Sixth and subsequent policy terms

**RULE 56. MERIT RATING PLAN** (continued)

If the most recent at-fault accident or traffic violation occurred less than three years prior to the policy effective date, the operator’s merit rating code will equal the sum of the points accumulated for at-fault accidents and traffic violations that occurred during the five years immediately preceding the effective date of the policy. Points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation.

If there are no at-fault accidents or traffic violations attributable to an operator during the six years immediately preceding the policy effective date, the operator’s merit rating code is 99. If there are no at-fault accidents or traffic violations attributable to an operator during the five years immediately preceding the policy effective date, the operator’s merit rating code is 98.

**Calculation of Merit Rating Adjustment**

The factor used to either credit or charge for Merit Rating is applied to Compulsory Bodily Injury (Part 1), PIP (Part 2), Property Damage (Part 4) and Collision (Part 7).

\* The premium adjustment is the last step in the rating process after all discounts and rating factors have been completed.

\* Total policy credit or charge for merit rating is determined by applying the above factors (for the appropriate points) to rates by coverage (after all applicable discounts and rating factors), rounding to the nearest whole dollar amount, and then summing the results for all coverages.

**RULE 64. FIRST ACCIDENT FORGIVENESS**

First Accident Forgiveness is added to the policy under the following circumstances. A charge for merit rating may only be waived if the insured is carrying the forgiveness on their policy at the time of loss.

New Customer

\*

- The new policyholder carried a similar waiver with their prior carrier at the time the account was written new to Harleysville, OR
- In the prior 6 years: no incident activity that results in a charge for merit rating in accordance with Rule 56, Merit Rating Plan, and no major violation or at-fault accident.

If the new customer has a chargeable accident in the experience period, where accident forgiveness was applied by the prior carrier, the accident will not be forgiven with Harleysville. Surcharges will be applied and the risk will not qualify for First Accident Forgiveness until the criteria noted in the "Existing Customer" section below has been met.

Existing Customer

- An existing Harleysville policy has been free of chargeable at-fault accidents and major violations for the 5 years preceding the renewal effective date.

First Accident Forgiveness does not apply if an existing customer with a waived charge for merit rating has one or more additional chargeable accidents with Harleysville in a three year experience period. The three year experience period is calculated from the renewal effective date. In this case, the charge for any previously waived accident(s) is restored. For example, a policy with first accident forgiveness for an accident in a prior term incurs a second fault accident, and both accidents are inside the three year experience period. At the next renewal, a charge via points would apply for both accidents as defined in Rule 56.

**RULE 65. TIERING**

Harleysville Insurance places each new business policy in a rating tier. Tier selection is determined by a mix of the following characteristics: years of driving experience; major violations; minor violations; at-fault accidents; not-at-fault accidents; comprehensive losses; limits of liability; lapses in coverage; and physical damage coverage.

Each policy is placed in a single rating tier, and categorized as Standard, Preferred, or Elite.

Tier	Factor
Standard	1.08
Preferred	1.00
Elite	0.95

**RULE 66. SEASONAL LAY-UP COVERAGE**

At the option of the insured, a seasonal lay-up credit is available and applicable to selected coverage premiums for eligible vehicle(s) withdrawn from use for a period of at least 30 days and no longer than 6 months. Charge 50% of the otherwise applicable premium to the following coverages:

Bodily Injury To Others (Part 1), Personal Injury Protection (Part 2), Bodily Injury Caused by An Uninsured Auto (part 3), Damage To Someone Else's Property (Part 4), Optional Bodily Injury To Others (Part 5), Medical Payments (Part 6, and Bodily Injury Caused By An Underinsured Auto (Part 12).

An eligible vehicle is defined as those of the private passenger type, except motor homes, recreational trailers, golf carts, electric vehicles and antique vehicles. The credit will be applied pro-rata for the period the vehicle is withdrawn from use.

**NOTE:** The full limits of coverage, as indicated on the policy declarations page, remain in effect throughout the lay-up period subject to any conditions of the policy.

**RULE 67. YEARS DRIVING EXPERIENCE TABLE**

A years licensed factor will be applied to Coverage parts 1, 2, 3, 4, 5, 6, 7, 8 and 9 based on the driver's number of years licensed at the time the policy is issued or renewed. The number of years licensed will be determined based on the driver's date first licensed and the policy effective date, truncated to the nearest full year of driving experience. If the date first licensed is not provided by the insured upon the request of the company or from the Registry of Motor Vehicles, Harleysville will assign the years licensed factor based upon the earliest possible date the driver's license could be obtained in Massachusetts.

## **HARLEYSVILLE INSURANCE**

### **Internal Rate of Return Model**

#### Explanatory Memorandum for the Determination of Underwriting Profit Provision

The underwriting profit provision contained in this filing was developed from the Internal Rate of Return (IRR) Model displayed on the following pages. The IRR Model generates expected underwriting and investment results for the prospective period of the proposed rates. This provides a more appropriate reflection of anticipated profit than traditional methods that incorporate calendar year results containing contributions from prior policy years.

The model is designed to simulate the underwriting and investment operations of an insurance company writing a single policy. Given specific underwriting and investment assumptions as well as certain operating constraints, the model calculates equity flows between the company and its stockholders. The interest rate for which the present value of these equity flows equals zero is defined as the IRR. Through an iterative process, the model determines the premium necessary to achieve a target rate of return. The target rate of return is selected as the return necessary to attract capital to the operation. The combined ratio associated with the required premium and all underwriting expenses and policyholder dividends provides the necessary underwriting profit provision to be included in the proposed rates ( $U/W \text{ profit provision} = 1 - \text{combined ratio}$ ).

The operating constraints incorporated into the model are determined by a combination of Harleysville's current operations and the practical limitations of the model. The predominant constraint is the determination of a surplus amount to be maintained during the period for which obligations from the policy exist. Surplus requirements for the beginning of each year are determined by a selected reserve to surplus ratio for all years where reserves include unearned premium reserves and loss and loss adjustment expense reserves. These ratios have been selected to reflect the relative risk of the line of business being evaluated. The surplus is then increased or decreased by the statutory net income after federal income tax. The difference between the ending surplus amount and the required surplus for the beginning of the following year is the amount returned to the stockholder. This model assumes that the stockholders' funds are unlimited and further investments are made if the surplus falls below required levels.

The underwriting results are based on statutory accounting principles and assumptions specific to the line of business being evaluated. The projected loss and allocated loss adjustment expense ratio, and other underwriting expenses are those developed in this filing for the prospective period. The loss, expense, and dividend payout patterns are based on historical analysis of the corresponding line of business. The model assumes premiums are earned and losses are incurred evenly over the term of the policy. Commissions are paid according to the collected premium patterns. Contingent commissions and residual market costs are assumed to be paid in the year following the year in which they are incurred.

## **HARLEYSVILLE INSURANCE**

### **Internal Rate of Return Model**

#### Explanatory Memorandum for the Determination of Underwriting Profit Provision

The investment results reflect current investment opportunities and company strategies. The current investment environment is the most accurate reflection of anticipated income generated from funds supplied by writing a policy today. The beginning surplus is distributed to various investment vehicles based on Harleysville's current investment strategy. The investment income earned in a particular year is based on an estimate of the average invested amount during the year and an assumed investment yield. The estimated invested amount is accomplished by incorporating 50% of the underwriting cash flow for the current year. A positive cash flow indicates additional surplus being invested during the year; whereas, a negative cash flow represents a depletion of surplus available for investment. The investment yields reflect those currently available in the market. The cash flow yield is an average based on the assumed investment distributions.

Current federal tax laws and the Alternative Minimum Tax are considered in developing the operating results.

\* Total policy credit or surcharge is determined by applying the above factors (for the appropriate points) to rates by coverage (after all applicable discounts and rating factors), rounding to the nearest whole dollar

\*\*With this filing, Code of 97 and 96 will no longer be offered in Harleysville's Merit Rating Plan.

**RULE 19. DISCOUNTS** (continued)

The company may use information from the Vehicle Inspection System of the Registry of Motor Vehicles to verify annual mileage. The difference in the two most recent odometer readings reported by the Registry, if at least six months apart, shall be annualized to determine eligibility for the discount. If the Registry reports only one reading, which is more than six months before the application for the discount, the applicant may provide a current odometer reading on the Annual Mileage Discount Form, and the difference shall be annualized to determine eligibility.

If two odometer readings, at least six months apart, are not available to the company through the Registry of Motor Vehicles, the Annual Mileage Discount Form or other standard forms, the vehicle is not eligible for the annual mileage discount.

**3. Application of Discount**

The applicable discount applies to rates otherwise determined for each insured vehicle by coverage, limits purchased, territory, driver class, and model year and symbol prior to the application of the merit rating plan.

**F. Passive Restraint Discount**

A 25% discount of the premium paid for Parts 2, 3, 6 and 12 will be given to eligible policyholders for qualifying vehicles which contain occupant safety features. These features are: an airbag installed for either the driver's seating position or both front outboard designated seating positions or an automatic seatbelt installed for either the driver's seating positions or both front outboard designated seating positions.

**G. Advanced Driver Training**

A 5% credit will be applied to Parts 1, 2 and 4-9 where a premium is shown on the coverage selections page for a rated operator who has successfully completed an Advanced Driver Training Class. Advanced Driver Training classes must be recognized and approved by the MA RMV. A certificate of completion must be provided in order to apply the credit.

**H. Life Credit**

A premium credit of 5% will be applied to Parts 1, 2 and 4-9 when a named insured has a private passenger auto policy and a qualifying Life Insurance or Annuity policy with Harleysville.

Credit Eligibility:

1. Named insured listed on auto policy must match named insured on Life or Annuity policy.
2. Eligible Life / Annuity policies include: Harleysville Elite Term, Whole Life, Universal Life, Accumulator Deferred Annuity and Group Life.
3. This discount is in addition to any other applicable companion credits and applies only once regardless of the number of Life or Annuity policies in the household.
4. This credit will terminate at the first renewal following termination of the eligible Life or Annuity policy.

**I. Companion Credit**

A 10% Companion Credit shall be applied to Parts 1, 2 and 4-9 provided there is an in-force Homeowners policy in any Harleysville member company, the Massachusetts FAIR Plan, or another eligible company. The homeowner policy can be any owners form (HO 00 01, HO 00 02 or HO 00 03), a renters form (HO 00 04) or a condo form (HO 00 06).

**J. New Policyholder Discount**

Newly Issued policies qualify for a New Policyholder Discount if each of the drivers on the policy is free of surcharged at-fault accidents and violations. This includes policies with a merit rating code of 00, 96, 97, 98 or 99. If a policy that has the New Policyholder Credit subsequently has a surcharged at-fault accident or violation, they will lose the New Policyholder Credit on the next renewal. As the New Policyholder Discount phases out, it is supplemented by the Customer Loyalty Credit discount assuring that policies that remain free of surchargeable accidents and violations will not see a net discount reduction. This credit applies to Parts 1, 2, 4 and 5-9.

**RULE 56. MERIT RATING PLAN** (continued)

If the most recent at-fault accident or traffic violation occurred less than three years prior to the policy effective date, the operator's merit rating code will equal the sum of the points accumulated for at-fault accidents and traffic violations that occurred during the five years immediately preceding the effective date of the policy. Points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation.

If there are no at-fault accidents or traffic violations attributable to an operator during the six years immediately preceding the policy effective date, the operator's merit rating code is 99. If there are no at-fault accidents or traffic violations attributable to an operator during the five years immediately preceding the policy effective date, the operator's merit rating code is 98. ~~If there are no at fault accidents or traffic violations attributable to an operator during the four years immediately preceding the policy effective date, the operator's merit rating code is 97. If there are no at fault accidents or traffic violations attributable to an operator during the three years immediately preceding the policy effective date, the operator's merit rating code is 96.~~

**Calculation of Merit Rating Adjustment**

The factor used to either credit or charge for Merit Rating is applied to Compulsory Bodily Injury (Part 1), PIP (Part 2), Property Damage (Part 4) and Collision (Part 7).

\* The premium adjustment is the last step in the rating process after all discounts and rating factors have been completed.

**RULE 64. FIRST ACCIDENT FORGIVENESS**

First Accident Forgiveness is added to the policy under the following circumstances. A charge for merit rating may only be waived if the insured is carrying the forgiveness on their policy at the time of loss.

New Customer

- The new policyholder carried a similar waiver with their prior carrier at the time the account was written new to Harleysville, OR
- In the prior 6 years: no incident activity that results in a charge for merit rating in accordance with Rule 56, Merit Rating Plan, and no major violation or at-fault ~~accident.~~

~~If the new customer has first accident forgiveness and they are written with a chargeable accident, the policy will not be charged for that accident.~~

Existing Customer

- An existing Harleysville policy has been free of chargeable at-fault accidents and major violations for the 5 years preceding the renewal effective date.

First Accident Forgiveness does not apply if an existing customer with a waived charge for merit rating has one or more additional chargeable accidents with Harleysville in a three year experience period. The three year experience period is calculated from the renewal effective date. In this case, the charge for any previously waived accident(s) is restored. For example, a policy with first accident forgiveness for an accident in a prior term incurs a second fault accident, and both accidents are inside the three year experience period. At the next renewal, a charge via points would apply for both accidents as defined in Rule 56.

**RULE 65. TIERING**

Harleysville Insurance places each new business policy in a rating tier. Tier selection is determined by a mix of the following characteristics: years of driving experience; major violations; minor violations; at-fault accidents; not-at-fault accidents; comprehensive losses; limits of liability; lapses in coverage; and physical damage coverage.

Each policy is placed in a single rating tier, and categorized as Standard, Preferred, or Elite.

Tier	Factor
Standard	1.08
Preferred	1.00
Elite	0.95

**RULE 66. SEASONAL LAY-UP COVERAGE**

At the option of the insured, a seasonal lay-up credit is available and applicable to selected coverage premiums for eligible vehicle(s) withdrawn from use for a period of at least 30 days and no longer than 6 months. Charge 50% of the otherwise applicable premium to the following coverages:

Bodily Injury To Others (Part 1), Personal Injury Protection (Part 2), Bodily Injury Caused by An Uninsured Auto (part 3), Damage To Someone Else’s Property (Part 4), Optional Bodily Injury To Others (Part 5), Medical Payments (Part 6, and Bodily Injury Caused By An Underinsured Auto (Part 12).

An eligible vehicle is defined as those of the private passenger type, except motor homes, recreational trailers, golf carts, electric vehicles and antique vehicles. The credit will be applied pro-rata for the period the vehicle is withdrawn from use.

**NOTE:** The full limits of coverage, as indicated on the policy declarations page, remain in effect throughout the lay-up period subject to any conditions of the policy.

\* **RULE 67. YEARS DRIVING EXPERIENCE TABLE**

A years licensed factor will be applied to Coverage parts 1, 2, 3, 4, 5, 6, 7, 8 and 9 based on the driver’s number of years licensed at the time the policy is issued or renewed. The number of years licensed will be determined based on the driver’s date first licensed and the policy effective date, truncated to the nearest full year of driving experience. If the date first licensed is not provided by the insured upon the request of the company or from the Registry of Motor Vehicles, Harleysville will assign the years licensed factor based upon the earliest possible date the driver’s license could be obtained in Massachusetts.

**RULE 64. FIRST ACCIDENT FORGIVENESS**

First Accident Forgiveness is added to the policy under the following circumstances. A charge for merit rating may only be waived if the insured is carrying the forgiveness on their policy at the time of loss.

New Customer

PART 7 - COLLISION - \$500 DEDUCTIBLE

TERRITORY NO: 5

Main table with columns: CLASS, MODEL YEAR, and SYMBOL (1-17). Rows represent model years from 2010 to 2000 for various classes (10, 17, 18, 20, 21, 25, 26, 30).

COLLISION table showing rates for classes 10 through 30 and a waiver of deductible charges (\$300 Deductible \$10, \$500 Deductible \$13).

LIMITED COLLISION table showing rates for \$500 Deductible - Charge 6% of the collision manual rate for the same model year and symbol, and a waiver of deductible charges (\$500 to \$0).

Class 15 is 75 percent of Class 10 at final rates for all coverages.
