RULE 4 - STANDARD PROCEDURES

A. Renewals

1. The company must mail the Coverage Selections Page not less than thirty days prior to policy expiration. The Coverage Selections Page may be accompanied by the Massachusetts Renewal Form prescribed by the Commissioner of Insurance.

The Massachusetts Renewal Form must be sent to the policyholder at least once every three years. It is not necessary for the policyholder to return this form to the producer or company representative unless the information contained on the Coverage Selections Page or the Massachusetts Renewal Form is inaccurate or obsolete.

2. The Company may elect to secure payment of a deposit premium.
3. Failure to pay the deposit premium may result in cancellation of the policy or removal of the annual mileage discount. The specific reason for cancellation is non-payment of any required premium.

The Cancellation Notice must also contain the following statement:

"This cancellation will not take effect if the full amount due shown above is paid on or prior to the effective date of cancellation."

B. Non-Renewal

1. No company shall refuse to renew a policy unless written notice is given by the company to the insured, or the producer or broker producing the business, at least forty-five days prior to the expiration of the policy. The notice shall be on a standard form prescribed by the Commissioner of Insurance.
 - a. A notice required to be sent by the company to the insured may be by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service. Unless another company has replaced the insurance, the notice should be electronically transmitted to the Registry of Motor Vehicles not earlier than the policy expiration date. If the insurance and registration are coterminous, it will not be necessary to notify the Registry of Motor Vehicles.
 - b. If the notice is required to be sent by the company to the producer or broker producing the business, such producer or broker shall, within fifteen days of receiving such notice, send a copy to the insured by regular mail for which a certificate of mailing receipt has been obtained from the United States Postal Service. The producer or broker must notify the company not later than the policy expiration date if the insurance is not replaced so that the company may, in turn, electronically transmit the notice to the Registry of Motor Vehicles. Notice to the company is not required if the insurance and registration are coterminous.

C. New Business

The producer is required to obtain from the applicant for insurance a new business application in all cases except when the producer is transferring a book of business from one company to another and the acquiring company waives this requirement.

If the Coverage is being replaced midterm, the producer must verify that there is no automobile insurance premium owed to the former company or producer.

D. Transfer of Insurer

1. The producer of record must provide information necessary for a company to transmit data to the Registry of Motor Vehicles for each vehicle insured.

In addition to reporting the necessary information to the company, the producer shall prepare an RMV-3 form, accompanied by the appropriate fee, for processing by the Registry of Motor Vehicles, if an insured requests a corrected registration certificate.

2. At the same time this transfer information is released to the new carrier, the producer of record must immediately issue to the former producer of record, if known, or if not known, to the former carrier, a Notice of Transfer of Insurer form. The notice must be signed by the producer of record and certified by affixing the company stamp of the new carrier.
3. Upon receipt of the notice of transfer of insurer, the former carrier shall:
 - a. discontinue coverage as of the date shown on a Notice of Transfer of Insurer;
 - b. compute the return premium, if any, as of the date shown on a Notice of Transfer of Insurer; and
 - c. notify the former producer, if any, of the transfer of coverage.

No notice of cancellation is required.

EXCEPTION - Except for D-1 above, Section D of this Rule is not applicable to those specific instances when a producer transfers a block of business from one carrier to another. In such situations the producer should refer to the former carrier for specific procedures. No Notice of Transfer of Insurer is required, but the producer of record must provide the new carrier with information necessary for that carrier to transmit registration data to the Registry of Motor Vehicles.

E. Cancellation (Other Than Transfer of Insurer)

1. Notice of cancellation must be given in a timely manner as required by Massachusetts law on a form approved by the Commissioner and shall include the specific reason(s) for cancellation.
2. The company must electronically notify the Registry of Motor Vehicles immediately upon the intended effective date of cancellation.

Refer to Rule 18.

RULE 5 - RESIDENCE AND LOCATION

The proper rate schedules and rules are those effective in the city or town where the automobile is principally garaged. Motor vehicles used by salesmen or solicitors, or those with similar duties, requiring the operation of the motor vehicle in more than one rating territory in Massachusetts, shall be assigned to the territory determined by the place of principal garaging, or, if there is no specific city or town of principal garaging, then, by the residential address of the operator, or, if the residential address of the operator cannot be determined, then, by the Massachusetts business address of the operator. No adjustment of the premium shall be made by reason of a change in the place of principal garaging during the policy period unless such change is permanent.

Massachusetts registration is required of non-residents in accordance with reciprocal agreements with the various states as determined by the Registrar of Motor Vehicles.

Any motor vehicle owned by a NON-RESIDENT of Massachusetts for which Massachusetts registration is required, regularly garaged INSIDE the Commonwealth, shall be charged the rate for the territory in which the motor vehicle is principally garaged by such NON-RESIDENT during the period of Massachusetts registration.

RULE 7 - POLICY PERIOD

- A. The insured shall have the option to purchase and the insurer shall not refuse to issue an annual motor vehicle policy or bond providing compulsory coverages containing any expiration date as the insured may elect. Insurers may offer such policies or bonds for a period of more than one year but not more than two years or may issue an extension of any existing policy or bond.
- B. Policies insuring individually owned motorcycles, trailers and other recreational-type vehicles shall, at the option of the insured, be issued for a period of less than one year with policy expiration to be coterminous with the registration. Endorsement M-0103-S, titled Non-Renewal of Policy (Motorcycles, Recreational Vehicles & Trailers), must be issued with the policy.

The premium for such policies shall be determined by applying the appropriate percentage to the annual rate based on policy inception date as shown in the table below.

If a short term policy is cancelled at the request of the insured later than thirty days from the effective date or later than thirty days from the receipt of the policy, whichever is later, the return premium shall be calculated on a short rate basis using the appropriate short rate table applicable to short term policies found in Rule 18.

RULE 8 - CHANGES

A. All changes requiring adjustments of premium shall be computed pro rata based on the rates in effect on the policy inception date.

B. Minimum Premiums

1. If an outstanding policy is amended and results in a premium adjustment of less than \$5, such adjustment may be waived, or it may be made subject to a minimum adjustment of \$5 except that the actual return premium of less than \$5 shall be allowed at the request of the insured.
2. A minimum premium of \$5 shall apply if an additional premium results because a coverage is added, or the limits of liability are increased, or a deductible is reduced, at the request of the insured during the policy period.
3. If a return premium of less than \$5 results because a coverage is cancelled, or limits of liability are reduced, or a deductible is increased, at the request of the insured, no refund need be made except at the request of the insured, in which case the actual return premium shall be allowed.

RULE 10 - CERTIFIED RISKS - FINANCIAL RESPONSIBILITY LAWS

A. Application

If a certificate of insurance is necessary to comply with the requirements of a Financial Responsibility Law of any state, or province of the Dominion of Canada, the insurance company must issue evidence of financial responsibility upon request of the insured.

In the event that evidence of financial responsibility is required as the result of a motor vehicle violation, a policy affording Damage To Someone Else's⁺ Property (Part 4) and Optional Bodily Injury To Others (Part 5) shall be construed to have the necessary limits of liability of the state or province.

NOTE: A charge shall be made for any filing required because of a motor vehicle accident.

In the event that a certificate of insurance for the future is required as the result of a conviction of a motor vehicle violation, the policy limits shall be increased to afford limits of liability not less than that required by the Financial Responsibility Laws of the state or province requesting certification and premium shall be increased accordingly.

The filing of a financial responsibility certificate of insurance as the result of a conviction of a motor vehicle violation requires the following rate surcharge to be allocated evenly between the Part 4 and Part 5 premiums computed as follows:

1. Owners

- a. If an owner is required to file evidence of financial responsibility for owned automobiles and for the operation of automobiles which he does not own, the additional premium shall be computed by applying the applicable surcharge in Section B to the sum of the total of Parts 1, 2, 4 and 5 premium for the highest rated automobile owned by the insured and the total non-ownership liability premium, modified in accordance with any applicable rating plan.
- b. In all other cases, the additional premium shall be computed by applying the applicable surcharge in Section B to the total premium for Parts 1, 2, 4 and 5 for the highest rated automobile owned by the insured, modified in accordance with any applicable rating plan.

2. Non-Owners

- a. If the policy is written to insure a Named Operator or Named Non-Owner, the additional premium shall be computed by applying the applicable surcharge in Section B to the total bodily injury and property damage premium for the policy.
- b. If coverage is provided under a policy which has been extended to cover a named individual in accordance with the Broad Form Coverage Section of the Use of Other Automobiles Rule, the additional premium shall be computed by applying the applicable surcharge to the (1) bodily injury rate for the highest rated automobile insured under the policy for the rating territory in which the named individual is located, or (2) if there is no automobile at such location, the rates for a Class 30 private passenger automobile for the territory in which the named individual is located.

When the cancellation becomes effective, the company shall electronically transmit the pertinent data to the Registry of Motor Vehicles in the manner prescribed by the Uninsured Motorists System (UMS). The written notice to the insured shall specify the reason or reasons for cancellation if the cancellation affects Part 1 coverage. If the reason for cancellation is non-payment of premium, the Notice of Cancellation shall state the amount of deficiency of the premium owed to the company for all the insurance provided and shall state in substance that the cancellation will not be effective if the insured pays the full amount of such deficiency on or prior to the effective date of the cancellation. If a cancellation of the policy results in a return premium of less than \$5.00, no refund need be made except at the request of the insured, in which case the actual return premium shall be allowed.

No policy in effect prior to a rate level revision shall be endorsed or cancelled and rewritten to take advantage of such a revision or to avoid the application of such a revision.

B. Sale or Transfer of Motor Vehicle, Surrender of Registration Plates, or Filing of a New Certificate

The policy shall terminate upon:

1. The sale or transfer of title by the owner of the motor vehicle or trailer thirty (30) days after the transfer unless the owner has registered a replacement motor vehicle.
2. The surrender to the Registry of Motor Vehicles of the registration plates issued to the owner of the motor vehicle by the Registrar of Motor Vehicles under Chapter 90, with a written statement, in such form as the said Registrar may require, (plates returned receipt) that they are surrendered to cancel the registration of, and the insurance under, the policy for such motor vehicle or trailer.
3. The filing with the Registry a certificate of insurance of another company as of the effective date of such certificate.
NOTE: If more than one motor vehicle or trailer is described in the policy, the termination of coverage applies only to the motor vehicle or trailer involved in one of the situations described above.

C. Reinstatement

If a policy has been cancelled by an insurance company, and such policy is later reinstated by the Board of appeal or by the Superior Court or Municipal Court of the City of Boston, the premium charge for the unexpired term of the policy shall be calculated pro rata on the premium applicable to the policy when originally issued.

D. Plates Returned Receipt

In the event that a policy has been terminated by-

- a. sale or transfer of the motor vehicle, or
- b. surrender of the registration plates by the owner of the motor vehicle with a written statement in such form as the Registrar may require, that they are surrendered to cancel the registration of, and the insurance under, the policy for such motor vehicle or trailer.

A receipt from the Registry of Motor Vehicles stating that the registration plates have been surrendered must be furnished to the insurance company.

E. Leased Vehicles Under Long Term Contract

In the event a policy of this type is cancelled, the cancellation notice is to be issued in the name of the person or organization to whom the policy was issued. A copy of the cancellation notice must be sent to the owner/registrator also, if it is other than the person to whom the policy was issued.

Upon the intended effective date of cancellation, a notice issued in the name of the actual owner/registrator must be electronically transmitted to the Registry by the company.

F. Instructions For Use of Pro Rata or Short Rate Table

- 1. Express the date of cancellation by year and decimal part of a year by combining the calendar year with the decimal appearing opposite the month and day in the Pro Rata Table, e.g., March 7, 2007, is designated as 2007.181.
- 2. In like manner express the effective date of the policy by year and decimal part of a year and subtract from the cancellation date.
- 3. The difference, in the case of one year policies, represents the percentage of the annual premium which is to be retained by the carrier.

Examples:

Cancellation date September 22, 2007	2007.726
Effective date July 6, 2007	<u>2007.512</u>
	.214

Earned premium for one year policy term will therefore be .214 times the annual premium.

Cancellation date March 7, 2007	2007.181
Effective date December 15, 2006	<u>2006.956</u>
	.225

Earned premium for one year policy term will therefore be .225 times the annual premium.

NOTE: As it is not customary to charge for the extra day (February 29) which occurs one year in every four years, this table shall also be used for each such year.

AUTOMOBILE MANUAL

The following additional provisions apply to policies with policy terms in excess of 12 months:

- a. If a policy written for a two year term is cancelled after twelve months, but less than twenty-four months, the earned premium shall be the first twelve months' premium plus pro rata of the annual premium for the second twelve months.
- b. If a policy written for a term in excess of one year, but less than two years is cancelled after the first twelve months, the earned premium shall be computed on a pro rata basis in the following manner.

Example: 18 month policy term

No. of days in policy term	547
No. of days in effect	425

425) 547 = .777 pro rata factor
.777 x total premium = earned premium

Instructions for Short Rate Table:

1. Determine the pro rata earned premium in accordance with the previous instructions.
2. Add that factor to the following factor:

Policy Period		
Months in Effect		
in	but	
excess of	less than	Factors
0	1	.000
1	2	.055
2	3	.050
3	4	.045
4	5	.040
5	6	.035
6	7	.030
7	8	.025
8	9	.020
9	10	.015
10	11	.010
11	12	.005

3. Apply the factor determined in 2 above to the annual premium to compute the percentage of the annual premium which is to be retained by the company.

Example:

Pro rata premium in example	.214
Short rate factor (policy in effect 2-3 months)	<u>.050</u>
	.264

Earned premium for annual policy cancelled on a short rate basis is .264 times the annual premium.

(All Vehicles with Registration
Expiration of November 30)

***RULE 19 - DISCOUNTS**

Multi-Car

An individual (or lawfully married individuals residing in the same household), who owns two or more automobiles and purchases coverage from the same company for at least two such automobiles, shall be entitled to a reduction of the premium applicable to Coverage Parts 1, 2, 4, 5, 7, 8 and 9. At least two of the automobiles must be private passenger vehicles as defined in Rule 27, except that vehicles classified as antiques are not eligible. The discount varies if all individuals residing in the household and insured by the same company qualify for the Excellent Driver Discount Plus, or qualify for the Excellent Driver Discount or Excellent Driver Discount Plus under the Safe Driver Insurance Plan. Only one Multi-Car discount applies to each policy.

- 15% - All individuals qualify for Excellent Driver Discount Plus (99 points)
- 10% - All individuals qualify for Excellent Driver Discount or Excellent Driver Discount Plus (99 points or 98 points)
- 5% - All other

Public Transit

A discount of the premiums paid for Part 4 and Part 7 coverages will be given to eligible policyholders who provide evidence of purchase of eleven monthly passes or tickets from a qualifying mass transit system during the automobile policy period. Refer to the Miscellaneous Rating Factors page for the applicable discount.

1. Eligibility

The vehicle must be a private passenger vehicle as defined in Rule 27 and be classified as use class 10, 15, 17, 18, 20, 21, 25 or 26 for a minimum of eleven of twelve months of the policy year. In addition, the vehicle must not be driven to work or school ten days or more per month. A minimum of eight of the eleven monthly passes or tickets may be submitted, provided other evidence of purchase is submitted for the missing passes or tickets. The insurer shall collect all such passes and other evidence used by a policyholder to obtain the discount.

NOTE: If a policyholder purchases a pre-paid non-refundable annual pass and furnishes proof of such purchase, the discount will be applied to the current policy rather than the expiring policy.

2. Replaced Vehicles

The discount will be computed on the basis of combined earned premium for Parts 4 and 7 provided the replacement vehicle otherwise qualifies for the discount. If the insured changes insurance companies and replaces the vehicle at the same time, the second company will be responsible for the discount provided the policy has been in effect six months or more.

3. Application of Discount

A discount will be applied to Part 4 and 7 premiums for each eligible vehicle. If there is only one eligible operator with more than one vehicle, the discount will be applied to the vehicle with the higher combined premium. If the policy insures only one vehicle, but there are two or more eligible operators, the discount shall be applied only once. If two or more vehicles and operators are eligible for discount, the discount shall first be applied to the vehicle which develops the highest combined premium for Parts 4 and 7, and then in descending order to the vehicle with the lowest combined premium.

This discount is fully earned and returnable directly to the policyholder unless the policyholder directs that the discount be applied as a credit to premium charges for a renewal policy or it is used to offset undisputed outstanding premium due the insurer. The maximum discount per eligible vehicle is \$75.

4. Qualifying Massachusetts Transit Systems

Refer to the Rate Section for a list of approved public transit systems.

5. The public transit discount shall be applied to the final premium as previously calculated and as previously adjusted by the applicable Safe Driver Insurance Plan Rating points or credit, including class 15.

Anti-Theft Device

Refer to Anti-Theft Devices Standards and Discounts Section.

Class 15

Premiums otherwise applicable to class 10 automobiles shall be reduced by 25% for insureds age 65 or older. If the principal operator becomes age 65 during the policy year, the class 10 premium must be adjusted as of that date. The premium adjustment shall be credited to the policyholder on that date unless that date is within sixty days of the expiration date of the policy, in which case the adjustment may be credited to the renewal policy. A notice of this classification change must be sent to the policyholder either prior to or with the proposed adjustment. The policyholder is required to notify the company of any change in operator usage which would affect entitlement to the discount. Companies have the option of applying this discount in either of two ways:

1. Compute 75% of the class 10 rate for each part and display the exact dollar and cents results for each part.
2. Compute 75% of the class 10 rate for each part and unless the result is a whole dollar amount, reduce the result to the next whole dollar.

The 25% discount is applied to the final premium for each part after all other discounts and rating factors have been completed. It is the last step in the rating process prior to the application of the Safe Driver Insurance Plan points or credit.

Annual Mileage Discount

A discount of the premium paid for Parts 1, 2, 3, 4, 5, 6, 7, 8 and 12 will be given to eligible policyholders on request, when the annual mileage of the vehicle falls into one of two categories. The discount will be based on the actual mileage driven in the previous policy year as determined by a comparison of two odometer readings, at least six months apart, from Registry of Motor Vehicle information or the Annual Mileage Discount Form and other standard automobile insurance forms available to the company. Refer to the Miscellaneous Rating Factors page for the applicable categories and discounts.

1. Eligibility

The vehicle must be a private passenger vehicle as defined in Rule 27, except that vehicles classified as Antiques are not eligible. The company may request that the applicant for the discount complete the Annual Mileage Discount Form approved by the Commissioner of Insurance for the verification of eligibility for the discount.

2. Verification

The company may use the odometer readings provided by the applicant on the Annual Mileage Discount Form or other standard forms available to the company, in order to verify the mileage driven in the past year. The company shall compute the annualized difference between the odometer reading at the time of application and the previous odometer reading to determine eligibility. If a vehicle replaces a vehicle which is receiving the discount, the annual mileage of the prior vehicle will be attributed to the replacement vehicle.

The company may use information from the Vehicle Inspection System of the Registry of Motor Vehicles to verify annual mileage. The difference in the two most recent odometer readings reported by the Registry, if at least six months apart, shall be annualized to determine eligibility for the discount. If the Registry reports only one reading, which is more than six months before the application for the discount, the applicant may provide a current odometer reading on the Annual Mileage Discount Form, and the difference shall be annualized to determine eligibility.

If two odometer readings, at least six months apart, are not available to the company through the Registry of Motor Vehicles, the Annual Mileage Discount Form or other standard forms, the vehicle is not eligible for the annual mileage discount.

3. Application of Discount

The applicable discount applies to rates otherwise determined for each insured vehicle by coverage, limits purchased, territory, driver class, and model year and symbol prior to the application of points or credit under the Safe Driver Insurance Plan.

These features are: an airbag installed for either the driver's seating position or both front outboard designated seating positions or an automatic seatbelt installed for either the driver's seating positions or both front outboard designated seating positions.

Good Student Discount

A discount shall be applied to the premiums for Parts 1, 2, 4, 5, 7, and 8 when the vehicle is rated under Rate Classifications 17, 18, 20, 21, 25 and 26, and the assigned driver meets the following criteria.

- a. The operator:
 - (1) is licensed less than 6 years; and
 - (2) is at least a sophomore (10th grade) full-time high school student; or
 - (3) is a full-time student of a college, university or accredited vocational-technical institute; or
 - (4) attended a college, university or accredited vocational-technical institute on a full-time basis.

- b. The student must:
 - (1) rank among the top 20% of the class scholastically; or
 - (2) maintain at least a "B" average, or its equivalent; or
 - (3) maintain at least a 3.0 average in a 4, 3, 2, 1 point system; or
 - (4) be included in a "Dean's List", "Honor Roll" or comparable list indicating scholastic achievement; or
 - (5) have achieved a cumulative scholastic average of "B" or 3.0 or higher if qualified under a.(3) or (4).

- c. Proof of Eligibility consists of any of the following:
 - (1) a report card, transcript or copy of the Dean's List or Honor Roll for the immediately preceding school semester, quarter or other grading period; or
 - (2) the cumulative scholastic record from the appropriate college, university or vocational-technical institute for the immediately preceding school semester, quarter or other grading period.

In order to retain the Good Student Discount, the insured will be required to furnish proof of eligibility annually.

Exception: Any driver who qualifies when licensed more than 3 years, or who graduates from a college, university or accredited vocational technical school when licensed more than 3 years and qualifies as a good student, will continue to receive the Good Student Discount without further proof. However, the discount only applies to a vehicle with a Rate Classification of 17, 18, 20, 21, 25 or 26.

This discount applies to all vehicle types except motorcycles, antiques, antique motorcycles, trailers, golf mobiles and lawnmowers (motorized), and snowmobiles.

Policies under the ExpressIt payment plan or the Payroll Deduction payment plan shall receive a 5% discount off premiums for Parts 1-9 and 12.

Those insureds who chose another one of the payment methods will not receive this discount.

This discount applies to all vehicle types.

On those policies where the ExpressIt or Payroll Deduction payment method is discontinued, either by the insured or by the fact that the Group account is no longer eligible, the discount will be lost immediately.

18	1.15	1.08

*Determine the actual cash value premium for Symbol 27 vehicles by:

a) Increasing the factor for Symbol 26 by +.15 for each \$10,000 or portion of \$10,000 above \$80,000 of the FOB List Price or Purchase Price, whichever is higher.

b) Applying this factor to the Symbol 17 premium shown in the Rate Pages for the applicable territory, class, and model year, before discounts are applied.

RULE 23 - HIGH-THEFT VEHICLES

For certain model years, some makes and models are considered high-theft vehicles. These vehicles are identified as such in the Symbol and Identification Section of this Manual.

Any person who acquires ownership of a high-theft vehicle must have a Category III, Category IV or Category V anti-theft device or vehicle recovery system installed in the vehicle, otherwise the company may, at its option, charge an extra-risk rate, decline coverage, or cancel existing coverage, as the case may be.

New Business Rule

Any high-theft vehicle listed on a New Business Application which does not have an appropriate anti-theft device or vehicle recovery system shall be written at the extra-risk rate. If an appropriate device is installed within thirty days of the policy effective date, the extra-risk premium will be waived and the anti-theft discount will be allowed retroactive to policy inception. If an appropriate device is not installed within thirty days of policy inception, the company, at its election, may cancel Collision and Comprehensive or continue such coverage at the extra-risk rate.

A category III, IV, or V device installed more than thirty days after the policy effective date qualifies for the applicable discount, but the discount shall be calculated pro-rata from the date of installation. Any premium charged for an extra-risk rate shall be earned on a pro-rata basis.

AUTOMOBILE MANUAL

RULE 24 - EXTRA-RISK RATING (COLLISION AND COMPREHENSIVE)

The following circumstances require the application of the extra-risk rate if the company elects to write the coverage and the insurance to be provided is on a vehicle:

1. customarily driven by or owned by persons who have within the last five years been convicted of vehicular homicide, auto insurance related fraud, or auto theft.
2. customarily driven or owned by persons who have within the last three years, been convicted of any category of driving under the influence of alcohol or drugs.
3. customarily driven by or owned by persons who, within three years preceding the effective date of the policy, have been involved in four or more at-fault auto accidents. An at-fault auto accident is one in which the owner or any person who customarily drives the auto was more than 50% at fault.
4. designated as a "high-theft vehicle" which does not have at least a minimum anti-theft or auto recovery device as prescribed by the Commissioner of Insurance. (Refer to Rule 23.)
5. customarily driven by or owned by persons who have two or more total auto theft or fire insurance claims within the three years immediately preceding the effective date of the policy.
6. customarily driven by or owned by persons who have within the last five years made an intentional and material misrepresentation in making claim under Collision or Comprehensive coverage.
7. for which a salvage title has been issued by the Registrar of Motor Vehicles unless a new certificate of title has been issued in accordance with Massachusetts law. (Coverage cannot be written on a vehicle which has been issued a salvage title - Coverage must be refused.)

The factors for the extra-risk rate are applied to the manual rate as follows:

	Collision	Comprehensive
Vehicular Homicide	1.5	1.0
Auto Insurance Related Fraud	1.5	1.5
Auto Theft	1.5	1.5
Driving Under the Influence of Alcohol or Drugs	1.1	1.0
Four or More At-Fault Accidents	1.1	1.0
High-Theft Vehicle	1.0	1.5
Two or More Total Fire or Total Theft Losses	1.0	1.5
Material Misrepresentation	1.5 (1.2)	1.5 (1.2)
Salvage Title	Coverage not available	

NOTE: For the first instance of a material misrepresentation in the application for insurance, the lower indicated factor may be used, at the option of the company.

Application of Factors

A. Single Vehicle Policies

Where more than one category applies to the same operator or vehicle, the highest applicable factor shall be used respectively for Collision and Comprehensive. For example, if a listed operator is convicted of vehicular homicide and also has a high-theft vehicle, the factor for both Collision and Comprehensive is 1.5. The factors do not compound. In cases where separate policies are issued by the same insurer to the common owner of two or more vehicles, the highest applicable factors for Collision and Comprehensive shall be assigned to the vehicle with the highest premium for Collision and Comprehensive respectively. For each subsequent vehicle, the next highest applicable factor shall be assigned to the next highest premium for Collision and Comprehensive respectively, etc. If one or more of the extra-risk categories of insurance fraud, auto theft or material misrepresentation apply to such common owner, the applicable factor shall be used for both Collision and Comprehensive for each insured vehicle.

B. Multi-Vehicle Policies

The highest applicable factors for Collision and Comprehensive shall be assigned to the vehicle with the highest premium for Collision and Comprehensive respectively. Each subsequent vehicle shall be assigned the next highest applicable factor and so forth. If one or more of the extra-risk categories of insurance fraud, auto theft or material misrepresentation apply to the insured owner, the applicable factor shall be used for both Collision and Comprehensive for each insured vehicle.

RULE 25 - VEHICLE SERIES RATING

Vehicle Series Rating (VSR) is a program applied by the Insurance Services Office (ISO) to adjust the Price New Symbols of vehicles to increase or decrease the symbol due to loss experience reflecting crash damage, ease of repair, cost of repair parts, and theft for the particular vehicle, resulting in the Rating Symbol. The Rating Symbol is used to determine a vehicle's premium for Collision, Limited Collision and Comprehensive coverage.

The VSR program reviews the symbol assignments for all vehicle series three times: when the model year is introduced and in each of the next two annual VSR review years. The symbol for a particular series may be upsymbolled, downsymbolled, or may remain the same.

Reassignment of symbols shall be effective with 2006 and subsequent model year vehicles and may only be applied at policy issuance or renewal. A policy shall not be changed mid-term solely due to a change in symbol assignment based on symbol review.

RULE 26 - RESERVED FOR FUTURE USE

SECTION II - PRIVATE PASSENGER AUTOMOBILES

***RULE 27 - PRIVATE PASSENGER DEFINITION**

- A. A motor vehicle of the private passenger or station wagon type that is owned or leased under contract for a continuous period of at least twelve months by one or more individuals, excluding (1) partnerships, (2) corporations, (3) unincorporated business associations, and (4) other legal business entities with a federal employer identification number, and is not used as a public or livery conveyance nor rented to others. A vehicle which meets the conditions of Rule 31, regarding the transportation of fellow employees, students or others for consideration, is included in this definition, provided such vehicle is not registered for carrying passengers for hire.
- B. A motor vehicle that is a pick-up or van, that is owned or leased under contract for a continuous period of at least 12 months by one or more individuals, excluding (1) partnerships, (2) corporations, (3) unincorporated business associations, and other legal business entities with a federal employer identification number, and

 2. is not used for the delivery or transportation of goods or materials unless such use is incidental to the insured's business of installing, maintaining or repairing furnishings or equipment.
- C. Gross Vehicle Weight Rating means the value specified by the manufacturer as the loaded weight of a single vehicle.
- D. At the option of the company, an eligible vehicle under this rule whose title has been transferred to a trust may be written under the Massachusetts Automobile Insurance Policy, subject to the following requirements: the grantor of the trust must be an individual or lawfully married individuals residing in the same household, and must be the only insured(s) named in Item 1 of the Coverage Selections Page. All vehicle(s) insured under the policy must be owned by the trust. A vehicle owned by a trust in which the grantor is a partnership or corporation must be written under a commercial auto policy.

If a motor vehicle is leased as described in the foregoing paragraphs, and the lessee is obtaining the insurance, the policy must be issued to the lessee as named insured and Endorsement M-0070-S, "Coverage For Anyone Renting An Auto To You," must be attached to the policy.

***RULE 28 - PRIVATE PASSENGER CLASSIFICATIONS**

A. Operators

All operators of the insured automobiles must be listed on the Coverage Selections Page of the Policy. An operator is a person who has an operator's license, but does not include a person who has only a learner's permit.

1. Assignment of Operators to Automobiles

- a. Each operator listed on the policy shall be assigned to an automobile on the policy based on the operator's class and Safe Driver Insurance Plan credits or surcharges (SDIP points) in a manner which produces the highest Combined Premium (the sum of the premium for Parts 1, 2, 4, 5, 7, 8, and 9 for the operator's class and the operator's SDIP points) for each automobile. The operators shall be assigned in order of the highest Combined Premium applied to the automobile with highest Base Premium (the automobile's Class 10 premium for Parts 1, 2, 4, 5, 7, 8, and 9) until all operators are assigned to an automobile, except that:
 - i. If an inexperienced operator is the principal operator of a specific automobile, the automobile shall be rated with the appropriate inexperienced principal operator class and SDIP points of that operator; and
 - ii. If an operator age 65 or over is the principal operator of a specific automobile and all operators listed on the policy have been licensed at least six years, the automobile shall be rated as Class 15 and that operator's SDIP points shall be applied. However, if more than one listed operator is age 65 or over, Class 15 and the SDIP points of such operators shall be applied in the manner which produces the highest Combined Premium.
 - iii. If an operator's class and SDIP points are rated on an automobile covered by another Massachusetts private passenger insurance policy, that operator shall be deferred from rating on the policy (Deferred Operator). If all operators listed on a policy are Deferred Operators, the operator producing the lowest Combined Premium shall be assigned to the automobile(s).
 - iv. If only one operator is listed on the policy, all automobiles on the policy will be assigned the same principal operator classification and SDIP points.
 - v. If each listed operator has been used in rating an automobile on the policy, any remaining automobiles shall be assigned the operator class and SDIP points which produces the lowest Combined Premium, unless the automobile is subject to rating as Class 30.
 - vi. If more than one operator is listed on the policy, an operator cannot be assigned as the principal operator of more than one automobile on the policy until the other operators (except Deferred Operators) are assigned to an automobile.

- b. The assignment of operators to automobiles applies regardless of the number of policies or insurers involved.
- c. An inexperienced operator in active military service with the Armed Forces of the United States of America shall not be considered an operator of the automobile unless such individual customarily operates the automobile.
- d. Private passenger automobiles owned by clergy are to be classified as class 10 or 15 unless (a) Class 30 is required due to business use other than in connection with church use or (b) an inexperienced operator is listed on the policy.

2. Excluded Operator

If an operator who is a member of the household is to be excluded in rating a particular automobile to produce a lower premium charge, the policyholder must submit a signed statement that such operator does not and will not operate the automobile to be insured. The signed statement must be on the standard form approved by the Commissioner of Insurance, MPL-1053-020, Massachusetts Operator Exclusion Form.

If any operator excluded as a result of such signed statement operates the automobile, the appropriate operator classification premium for the full policy period may be charged unless a collision or limited collision claim has been denied in accordance with the provisions of the policy because the excluded operator was driving the automobile at the time of the accident.

3. Driving Experience

An operator new to Massachusetts must provide evidence of licensure from the state or country where the operator was previously licensed in order to assign the correct operator classification under this rule. If electronically available, the company will be responsible for obtaining the motor vehicle operator report from the other state or country. If necessary, a certified English translation may be required. No operator shall be assigned to Class 10 unless the operator has six or more years of driving experience.

The classification assigned to the operator is based on the number of years licensed in the other state or country and the completion of driver training, as established by the evidence of licensure. If no evidence of prior licensure is available, the operator may be assigned to Class 20 (inexperienced principal operator, licensed less than three years, no driver training) or Class 21 (inexperienced occasional operator, licensed less than three years, no driver training). The Massachusetts driving experience will be used thereafter to assign the operator classification.

4. Operators

Operators will be classified by the amount of use of an insured automobile:

- **Principal Operator** - a person who has an operator's license and operates the insured automobile more than any other listed operator as determined by the percentage of use of the automobile.
- **Occasional Operator** - a person who has an operator's license and operates the insured automobile less than the principal operator.

B. Operator Classes

- 30 Business Use.** The operator has been licensed at least six years and the automobile is used in the occupation, profession, or business of the insured. Going to or from the principal place of the occupation, profession or business of the insured is not considered business use.

C. Classification Changes

Classification of each automobile shall be determined by the facts existing as of the effective date of the policy. Premium adjustments shall be made on a pro rata basis if changes occur during the policy period.

D. Satisfactory Driver Training Program

1. Completion and receipt of a certificate under the Massachusetts Behind The-Wheel Driver Training Program prescribed by the Registrar of Motor Vehicles, or
2. The presenting of satisfactory evidence (certificate signed by school officials) that such operators have successfully completed a driver education course in a state other than Massachusetts meeting the following standards:
 - a. The course had the official approval of the State Department of Education or other responsible state agency, and was conducted by:
 - (1) a recognized secondary school, college or university, or

6. If two or more vehicles are insured under a single policy, the same deductible election shall apply to all vehicles insured under such a policy.

The inexperienced operator class is applied when the operator of the motorcycle has been licensed to operate a motorcycle for less than six years, or holds a motorcycle permit. When an inexperienced operator classification is applied to a motorcycle, the rates for parts 1, 2, 4, 5, 7 and 8 must be multiplied by a factor of 1.50. "Tubular" describes a type of lock whose key is cylindrically shaped and which has at least 50,000 combinations.

"Electronic lock or keyless device" is an electronic coding device which must have more than 10,000 combinations. The combination used to unlock the device can be entered through a keyboard or similar data entry device or by means of a remote control device.

6. General

Stickers identifying the particular anti-theft system installed may not be attached to the car unless specifically permitted in these rules.

If two or more qualifying devices are attached to a vehicle, the total discount shall be that applicable to the device meeting standards for the highest discount. If one of the qualifying devices is a Category IV device, the applicable discount shall be calculated as stated in Item 4.
Discounts Applicable.

Insurers may require reasonable evidence of installation of any anti-theft device but may not refuse to grant a discount to a qualifying device solely on the grounds that it was installed by the owner of the auto.

Categories Defined

Category I

Devices qualifying in this category receive 5% discounts.

(a) Ignition or Starter Cut-Off Switch in Combination with Flush or Tapered Door Lock Buttons

This device is an ignition cut-off switch (sometimes called a "kill switch") or a starter cut-off switch which is inserted into the ignition wiring of an auto. The switch is tripped upon leaving the auto and must be switched back in order to start the auto.

The switch must be installed so that it is not visible from the driver's position when the driver is seated. In addition, the vehicle must contain flush or tapered door lock buttons on all doors.

A sticker may identify the presence of this system.

(b) Ignition or Starter Cut-Off Switches

Such ignition or starter cut-of switches either must be designed so that the wires leading from the switch to the engine compartment are protected by armored tubing or cable, or operate passively.

(c) Non-Passive, Externally-Operated Alarm

This is a non-passive warning alarm which is installed in an auto and can be set to go off if any door, the trunk or the hood is opened without first turning off the alarm by use of a key inserted in a lock mounted on the outside of the auto.

(d) Internally-Operated Alarm Not Meeting Category II or Category III Criteria

This is an alarm system which is activated from within the vehicle but which does not meet all the criteria found in Section (5.3) (a) or Section (5.4)(a); alarm must be triggered by entry of doors, hood or trunk.

(e) Steering Column Armored Collar

This is a device similar to an oversized padlock which clamps on the steering column over the ignition lock and prevents access to it. This device, upon being locked, prevents the vehicle from being started, or if the auto is hot-wired and started, the device prevents it from being steered. No part of the device, when not in operation, is attached to the steering column. A sticker may identify the presence of this device.

(f) Steering Wheel Removal Lock

This device prevents steering movement of the vehicle from a parked position. This is a high security steering wheel lock assembly manufactured of hardened steel components, which allows removal of the steering wheel from the vehicle. The assembly is permanently attached to the vehicle's steering column and is located between the column and the steering wheel. Operation of the lock is controlled by a high security configured key. Unlocking the assembly will permit removal of the steering wheel from the vehicle. A fitted security plate is then inserted onto the lock assembly in place of the steering wheel and the lock's security key is then removed. Re-attachment of the steering wheel onto the lock assembly requires use of the security key to first remove the fitted security plate and then to attach the steering wheel. The security key can be removed from the lock assembly only after either the security plate or steering wheel have been locked into place.

Category II

Devices qualifying in this category receive 15% discounts.

(a) Internally-Operated Alarm Systems Not Meeting Category III Criteria

This is an alarm system which is activated from within the auto but which does not meet all the criteria in Section (5.4)(a). The ignition must be automatically cut off, or the starter must be disconnected automatically. The alarm must be triggered by entry of doors, hood or trunk.

(b) Non-Passive Fuel Cut-Off Device

This is a shut-off device which operates to block the fuel line when a switch is tripped or when the device is engaged by a key. The switch to open or shut off the fuel line must be well hidden from view.

(c) Non-Passive Steering Wheel Lock

This device prevents the steering wheel from turning. A steel collar and barrel, into which the shackle of a lock fits, are permanently attached to the steering post. The shackle, made of case-hardened alloy steel, fits over the steering wheel spoke and into the barrel. A tubular key operates the lock. The collar, barrel and shackle must resist cutting with a file. A sticker may identify the presence of this system.

(d) Armored Cable Hood Lock and Ignition Cut-Off Switch

This system is one which meets all the criteria of Section (5.4)(f)(1) except paragraph (a). Armor must be similar to that used in outdoor telephone booths; it must extend through firewall and be secured so as to prevent retraction.

(e) Window Identification System

A window identification is one in which identification letters and/or numbers are etched by sandblasting, chemical process or other permanent marking into all the windows of the vehicle other than the small vent window.

Provision must be made for immediate telephone identification of the owner of the vehicle any time of day or night.

A sticker may identify the presence of this identification system.

(f) Emergency Handbrake Lock

This device prevents the release of the emergency handbrake. The lock replaces the handbrake grip, and is permanently attached to the handbrake lever. The lock encasement must be all metal construction. The lock is released by entering a preset digital combination. A sticker may identify the presence of this device.

(g) Car Transmission Lock

The device prevents the vehicle from moving from a parked position by locking the gear shift. A steel encased lock is permanently attached to the floor of the vehicle by a steel stand. The shackle, made of case hardened alloy steel, fits around the gear shift and is inserted into the lock. The device must have a high security locking system with at least 50,000 combinations. The lock, shackle and stand must resist cutting and filing.

A sticker may identify this system.

Category III

Devices qualifying in this category receive 20% discounts.

METROPOLITAN PROPERTY AND CASUALTY INSURANCE COMPANY
AUTOMOBILE MANUAL

(a) Passive Alarm System - This is an alarm system meeting the following criteria:

- (1) Ignition must be cut off automatically, or starter must be disabled automatically.
- (2) Alarm must be triggered by entry of doors, hood or trunk.
- (3) Hood must not open unless unlocked from inside the vehicle by a key, or by an electronic keyless device.
- (4) Alarm must sound for no more than eight minutes, and upon ceasing to sound, must reset itself.
- (5) Alarm must not emit a pulsating, whooping, or yelping sound which would cause it to be mistaken for the modern police, fire or other emergency vehicle siren.
- (6) Alarm must be installed in the engine compartment so as to be inaccessible without opening the hood.
- (7) The system must be engaged passively by turning the ignition key to the off position. To disarm the system a tubular lock or electronic keyless device must be used. The maximum time delay permitted to disarm the system after re-entry is twenty seconds.

(b) Passive Fuel Cut-Off Device

This fuel cut-off device is engaged by turning the ignition key to the off position. The driver must trip a switch to open the fuel line each time the car is started. This device must meet the following criteria:

- (1) The fuel line must be blocked when the power is off.
- (2) The switch to open the fuel line must be well hidden from view, but accessible to the driver from the driver's seat. In the alternative a tubular key or an electronic keyless device may be used.
- (3) A parking/service attendant override switch may be provided. It must be well hidden from view. It must not be accessible from the passenger compartment; alternatively, if the override switch is accessible from the passenger compartment, a warning buzzer must sound (or the operator must be distracted in some other way) while the engine is running and the override switch engaged. If the buzzer is disconnected, it must result in disconnection of the entire anti-theft system.
- (4) Any under-the-dash wiring installed in connection with this device must blend in color with factory-installed wiring.

(c) Armored Ignition Cut-Off Switch

This device is a kill switch designed to resist tampering. To prevent hot-wiring of the auto, a protective cap is attached to the coil or starter solenoid. Such devices must meet the following criteria:

- (1) Armored cable must run from a separate key to the coil, starter solenoid, or other engine component. Such cable must be similar to that used in outdoor telephone booths, collapse when cut, and preclude quick reconnection of the cut wire inside; alternatively, some other effective means of preventing defeat of the system by cutting the armored cable must be employed.
- (2) The device must prevent hot-wiring of the car.
- (3) A separate lock must be of tubular type and must be installed inside the auto so as to facilitate use by the driver; alternatively, an electronic keyless device may be used in lieu of a lock if it does not take significantly longer to engage the device than it takes to remove a key from a lock, and use of the system is otherwise facilitated.

(d) Passive Multi-Component Cut-Off Switch

This device is a kill switch activated when the ignition key is turned to the off position. It is designed to prevent hot-wiring of the auto. Such device must meet the following criteria:

- (1) The primary wire to the ignition coil must be disconnected.
- (2) The device must disconnect the starter.
- (3) One or more wires to the electronic ignition system, or to the points and condenser must be disconnected and grounded to the chassis.
- (4) The wiring must blend with factory-installed wiring, and the disconnecting/grounding wires must be routed to random points in the electrical system away from the components they affect.
- (5) The control module, if separate from the electronic locking mechanism, must be hidden in the engine compartment or other part of the car so that it is not easily detectable.
- (6) In order to start the car, a lock or electronic device must be used to deactivate the system. The lock must be of tubular type and must be installed inside the auto so as to facilitate use by the driver; alternatively, an electronic keyless device may be used in lieu of a lock if it does not take significantly longer to engage the device than it takes to remove a key from a lock, and use of the system is otherwise facilitated.

(e) Passive Time Delay Ignition System

This is a device which allows the car to start only if the operator waits a prescribed time, which must vary from device to device in a range of three to twenty seconds, before moving the ignition key from "On" to "Start". If the auto does not start, the operator must be required to wait at least ninety seconds before the device can be operated successfully on a subsequent try.

The device must be resistant to tampering; for example, if it is forcibly removed, reconnection of the electrical system must not be possible with a hot-wire device. Alternatively, the device must be installed with a hood lock operated by a tubular key.

(f) Armored Cable or Electrically Operated Hood Lock and Ignition Cut-Off Switch

This is a supplemental hood lock operated from within the auto which also cuts off the ignition when engaged. Such devices must meet the following criteria:

(1) Armored Cable Hood Lock

- (a) The hood lock cable must be armored by case hardened solid steel tubing designed to resist cutting; tubing must extend through firewall and be secured so as to prevent retraction. Otherwise, an alarm meeting the criteria of Section (5.3)(a) must be installed.
- (b) The system must be engaged by a push button or other device which facilitates use. The push button or other device must be installed within reach of driver when seated.
- (c) No portion of the hood lock cable may be accessible so that it could be grasped from underneath the car; and, if accessible through the grillwork, armor must extend to the locking mechanism.

(2) Electrically Operated Hood Lock

- (a) The hood lock is electrically operated and functions so that it remains locked even if the wiring operating the hood lock is cut.
- (b) The system must be engaged passively by turning the ignition key to the off position. To disarm the system a separate key or electronic keyless device must be used.
- (c) If the hood lock can be reached through the grillwork or from underneath the car, the hood lock must be shielded or armored so that it cannot be manually operated. The locks controlling the devices must be of tubular type or operate electronically.

(g) Passive, Delayed Ignition Cut-Off System

This electronic system disables the ignition circuit at a preset engine speed such that the engine cannot be restarted or hot-wired. Such device must meet these criteria:

- (1) The ignition must cut off automatically as soon as the engine reaches a speed in the range of 1,500 to 2,000 RPM.
- (2) The system must be automatically armed when the ignition key is turned to the off position.
- (3) A push button or other type of disarm switch must be well hidden from view. The wiring must blend with factory-installed wiring if placed under the dash. In the alternative, a tubular key or an electronic keyless device may be used.
- (4) An alarm or horn shall be actuated at the same time the ignition is disabled.
- (5) If a parking/service attendant switch is provided, a buzzer must sound all the time the engine is running. The switch must be hidden in a remote place.

(h) Passive Ignition Lock Protective system

This is a case hardened steel, protective cap which fits over the ignition lock so as to prevent extraction of the ignition lock cylinder. The cap fastens to a steel collar which fits around the steering post and over the ignition lock. The ignition key fits through a slot in the cap.

A sticker may identify the presence of this system.

(i) High Security Ignition Replacement Lock

This is a high security, case hardened steering column ignition lock, conforming to NHTSA Standard No. 1141, which cannot be removed using a conventional slide hammer or lock puller equipment.

A sticker may identify the presence of this system.

(j) Hydraulic Brake Lock

This is a dash-mounted device which, when activated and pressurized with the brake pedal, maintains hydraulic pressure on the brakes at two or more of a vehicle's wheels so that the vehicle cannot be driven. The device must have a high security locking system with at least 50,000 combinations and a lock which cannot be pulled using a conventional slide hammer or lock puller equipment.

Category IV

Devices qualifying in this category receive 20% discounts.

Vehicle Recovery System

This is an electronic unit installed in a vehicle that is activated after that vehicle is stolen. When activated, the device provides information to law enforcement officials or other public or private entities regarding the vehicle's location. The system provides for the routine delivery of the information to the appropriate law enforcement organization to assist in the recovery of the vehicle.

Category V

Devices qualifying in this category receive 25% discounts.

Vehicle Recovery System with Unauthorized Movement Notification

This is an electronic unit installed in a vehicle that is activated after that vehicle is moved without authorization. When activated, the device provides information to law enforcement officials or another public or private entity regarding the vehicle's location. The system provides for the routine delivery of the information to the appropriate law enforcement organization to assist in the recovery of the vehicle. Additionally, the device must provide personalized notification to the owner of a vehicle (or his or her authorized user) in the event of a potentially unauthorized movement of the owner's vehicle. Personalized notification shall mean notification delivered directly to the owner or his or her authorized user via automated communication, which is available beyond the proximity of the vehicle itself, to one or more devices designated in advance by the owner or his or her authorized user, such as to the owner's home telephone, mobile phone, electronic mail service, or wireless text messaging service. If maintaining the system in effect requires the payment of a service fee, insureds must provide the insurer reasonable confirmation of the coverage.

RULE 55 - PRE-INSURANCE INSPECTION PROGRAM

The Commissioner of Insurance promulgated regulation 211 CMR 94.00, Mandatory Pre-Insurance Inspection of Private Passenger Motor Vehicles, to be effective March 1, 1989. The following is a general summary of the regulation which was distributed with General Notice No. G-1766, dated June 18, 2002. For specific details about the Program, refer to the regulation.

Eligibility

Unless specifically exempted or waived, all private passenger motor vehicles and pick-ups or vans having a gross vehicle weight up to 8,000 pounds are required to be inspected by an insurer prior to the issuance of physical damage coverages by the insurer.

Exemptions to Inspection Requirement

An inspection shall not be required if:

1. The motor vehicle is a new, unused motor vehicle from a franchised automobile dealership where the insurer is provided with either: a copy of the bill of sale which contains a full description of the motor vehicle, including all options and accessories; or a copy of the RMV Form 1 provided by the Registry of Motor Vehicles, which establishes the transfer of ownership from the dealer to the customer and a copy of the window sticker or the dealer invoice showing the itemized options and equipment in addition to the total retail price of the vehicle.
2. The applicant has been insured for three years or longer, without interruption, under a motor vehicle liability policy or policies which include(s) physical damage coverage, issued by the insurer to which the application is submitted; or any applicant involuntarily transferred to another insurer due to the applicant's original insurer's withdrawal from the Commonwealth if the applicant otherwise qualifies under this regulation.
3. An inspection is waived by the insurer.
4. Any private passenger motor vehicle not owned by the applicant, which is used by the applicant, with the permission of the owner, as a temporary substitute due to breakdown, repair, servicing, loss or destruction of the applicant's own motor vehicle.
5. A motor vehicle which is leased less than six months, provided the insurer receives the lease or rental agreement containing a description of the leased motor vehicle, including its condition.
6. When requiring an inspection would cause a serious hardship to the insurer or the applicant and such hardship is documented in the applicant's policy record.
7. When the insurer has no inspection facility or authorized representative either in the city or town in which the motor vehicle is principally garaged or within five miles of said city or town.

Waiver of Inspection

An inspection may be waived if:

1. The motor vehicle is ten or more model years older for all policies issued or renewed during the current calendar year.

Example: For policies issued or renewed during calendar year 2005, inspection of all 1995 and older model year vehicles may be waived.

2. A non-owned vehicle is insured under a policy providing physical damage coverage issued by an insurer which has inspected such motor vehicle in accordance with the provisions of this regulation.
3. A producer is transferring a book of business from one insurer to one or more insurers.
4. An individual applicant's coverage is being transferred by an independent insurance producer to a new insurer and said producer provides the new insurer with a copy of the inspection report completed on behalf of the previous insurer, provided the independent producer represents both insurers, and the insured vehicle was physically inspected by the previous insurer. However, if the new insurer does not receive a copy of the inspection report sixty days prior to the first annual date, the insurer must, upon renewal of the physical damage insurance, require an inspection.
5. When a motor vehicle is insured for physical damage on the applicant's expiring Massachusetts Automobile Insurance Policy, or when a copy of a prior Pre-insurance Inspection is provided.
6. When the applicant has been a customer of the producer for at least three years under a Massachusetts Automobile insurance Policy which included physical damage coverage.

Deferral of Inspection

An insurer may defer an inspection for ten calendar days (not including legal holidays and Sundays) following the effective date of coverage on new business and on additional or replacement vehicles to an existing policy, if an inspection at the time of the request for coverage would create a serious inconvenience for the applicant. An inspection may also be deferred for applicants ceded to Commonwealth Automobile Reinsurers.

Whenever an inspection is deferred, the Notice of Mandatory Pre-Insurance Inspection Requirement (Form B) or the Acknowledgment of Requirement for Pre-Insurance Inspection (Form D) must be used in accordance with the Regulation.

If an inspection is not conducted within the ten day deferral period, physical damage coverage is automatically suspended on the day following the ten day deferral period.

Coverage may be reinstated to be effective at the time of inspection or, in accordance with the Regulation, the Notice of Suspension of Physical Damage Coverage (Form C) must be used.

Inspection Procedures

Inspections required or permitted shall be made by a designated authorized representative of the insurer at a time and place reasonably convenient to the applicant.

The inspection shall be recorded on the prescribed Motor Vehicle Pre-Insurance Inspection Report (Form A) and include appropriate photos as required under the Regulation.

The insurer must retain the original report and photographs for three years except as provided by the Regulation.

The insurers shall maintain an up-to-date list of all its authorized representatives and inspection sites.

RULE 56 - THE SAFE DRIVER INSURANCE PLAN (SDIP)

The following summary is a general overview of the Safe Driver Insurance Plan (SDIP) and its impact on underlying rates. For specific details, refer to the governing regulations, 211 CMR 134.00 and the documents entitled "Administrative Procedures For Safe Driver Insurance Plan - Policy Inquiries" and "Administrative Procedures For Safe Driver Insurance Plan - Claims," as published by the Merit Rating Board.

Surcharge Points/Experience Period

Each listed operator on a policy is assigned an Operator Surcharge Factor or a Credit Factor based on the operator's driving history record. The Operator Surcharge Factor is the factor applied to the otherwise applicable rate which reflects the number, type, and age of Surchargeable Incidents during the Policy Experience Period. The Credit Factor is either the Excellent Driver Discount, awarded to operators with Incident-Free Periods of more than five but less than six years, or the Excellent Driver Discount Plus, awarded to operators with Incident-Free Periods of at least six years. The Experience Period is the six year period immediately preceding the effective date of the policy. The points for the 2006 policy year, and subsequent policy years, will range from 0 to 45; the company may establish or modify this point range annually. The Merit Rating Board will compute and report to the Insurer the total number of operator Surcharge Points or Credits for each listed operator.

Operators New to Massachusetts

If an application for insurance indicates that an operator new to Massachusetts was licensed outside of Massachusetts within the last six years or such operator is being added to an existing policy, the operator's Policy Experience Period will begin as of the effective date of that policy until the company receives an authorized inquiry response from the Merit Rating Board indicating the operator's credit or surcharge points.

If an operator's Motor Vehicle Report (MVR) is electronically available, the company will be responsible for obtaining it from the state or country where the operator was licensed. Driving history on MVRs obtained from more than one state or country must be combined by the company and considered as one report. An acceptable MVR must have three years or more driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the MVR, the company must submit an SDIP policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's MVR with motor vehicle violations or at-fault accidents must be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's credit or surcharge points.

If an MVR is not electronically available, the operator's Policy Experience Period will begin as of the effective date of the policy until the company receives an authorized inquiry response from the Merit Rating Board with the operator's actual credit or surcharge points. The operator may obtain an official driving record or a record from a previous insurer and submit it to the company. If the driving record is not in English, a translation certified as true and correct by the translator must be obtained by the operator and attached to the driving record submitted to the company. An acceptable driving record must have three or more years driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the operator's record, the company must submit an SDIP policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's record with motor vehicle violations or at-fault accidents must be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's credit or surcharge points.

Classification of Surcharge Points

SDIP surcharge points are assigned as follows:

Minor traffic law violation	2 points	Major at-fault accident	4 points
Minor at-fault accident	3 points	Major traffic law violation	5 points

A claim payment for Bodily Injury Liability, Damage to Someone Else’s Property, Collision or Limited Collision of at least \$500 and up to \$2,000 constitutes a minor at-fault accident. A claim payment of more than \$2,000 constitutes a major at-fault accident. An “at-fault” accident is one in which the company determines that the listed operator is more than 50% at fault.

Surcharge points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation or if it occurs in the sixth (oldest) year in the operator’s six year Policy Experience Period.

Calculation of Premium Adjustment

The SDIP credit or surcharge factor is applied to Compulsory Bodily Injury (Part 1), PIP (Part 2), Property Damage (Part 4) and Collision (Part 7).

The SDIP premium adjustment is the last step in the rating process after all discounts and rating factors have been completed.

Excellent Driver Discount (5 Years Incident-Free)	<u>-0.07</u>	<u>-0.07</u>
	<u>Surcharge Factor</u>	<u>Surcharge Factor</u>
Number of SDIP Points X	0.15	0.075

Total Operator SDIP points are based on the Incident Free Period. When the Incident Free Period is less than or equal to three, the total number of Surcharge Points applicable to the operator shall be the sum of the surcharge points identified for each Surchargeable Incident in the Policy Experience Period. When the Incident Free Period is greater than three and the total number of Surchargeable Incidents in the most recent five years of the Policy Experience Period is three or less, the Surcharge Points applicable to each incident shall be reduced by one and the total number of Surcharge Points applicable to the Operator shall be the sum of those reduced surcharge points. In no event shall the surcharge points for any single incident be reduced below zero.

Assignment of Operators to Vehicles

The assignment of operators to vehicles is made in accordance with the provisions of Rule 28.

Excellent Driver Discount and Excellent Driver Discount Plus

A discount is applied that reflects the lower expected loss experience of operators with incident-free periods of more than five and less than six, and of at least six years, respectively, irrespective of the class and territory of the policy.

INCREASED LIMITS TABLES AND IMPLICIT SURCHARGE EXCLUSION FACTORS

Unless otherwise specified, the basic limits rates shown on the rate pages are for \$20,000/\$40,000 bodily injury (Parts 1 and 5) and \$5,000 property damage (Part 4). The charge for bodily injury increased limits is determined by applying the factors shown on the Increased Limits Tables to the total of the adjusted Part 1 premium and Part 5 basic limits premium and then subtracting the adjusted Part 1 premium.

Adjusted Part 1 premium is determined by applying the Implicit Surcharge Exclusion Factor to the Part 1 premium appearing in the Rate Pages for the particular territory and operator classification. The result should be rounded to the nearest whole dollar amount only after all calculations have been completed.

RULE 57 - SURETY BOND RULES AND RATES

1. The rates for Motor Vehicle Surety Bonds shall be 10% of the Statutory (Compulsory) Rates for Motor Vehicle Liability Insurance Policies.
2. No Motor Vehicle Surety Bonds shall be issued unless or until the applicant (owner) has furnished collateral equal to at least 120% of the highest amount of losses incurred in any one year of the most recent five-year experience period. If the experience is not available for the five preceding years, the applicant must satisfy the company that he is able to pay any judgment to the extent of \$40,000 for each motor vehicle to be covered. The minimum premium for a motor vehicle liability bond for Statutory (Compulsory) coverage shall be \$25.
3. The classifications for Motor Vehicle Surety Bonds shall be the same as for Motor Vehicle Liability Insurance Policies.
4. Motor Vehicle Liability Bonds executed on and after January 1, 1971, shall contain, as part of the recitals required by G.L. Chapter 90, Section 34A, the appropriate provisions of St. 1970, Chapter 670, Section 2 and St. 1971, Chapter 978. The term "insurer" as used in these statutes shall include the "obligor" under any Motor Vehicle Liability Bond so executed.

RULE 58 - REGISTRY OF MOTOR VEHICLES PROCEDURES

The following is a general summary of Registry of Motor Vehicles procedures. For specific details about procedures, contact the Registry.

Registration Requirements

A Registration is required for all vehicles and trailers. A complete "RMV-1" form must be submitted, along with the previous owner's title or certificate of origin, or a bill of sale for a vehicle that has not been titled previously.

Six to eight weeks prior to the expiration date of registration, the Registry will mail an "RMV-2" renewal card, which will show the current registration data for the owner of the vehicle and the vehicle. Certain changes may be made by the owner on the application.

An "RMV-3" Amendment of Registration form may be used to change information on a current registration, renew a current registration if an "RMV-2" form has not been received, swap from one license plate to another type of plate, such as a vanity plate, and re-register a vehicle for the same owner, if a new title is not required.

Registration Transfer

Valid plates from a previously-owned vehicle may be transferred to a newly acquired vehicle provided the owner is at least eighteen and has lost possession of the vehicle through either a transfer of ownership or sale of the vehicle.

An owner has seven (7) calendar days to operate a newly acquired vehicle with current plates before the transfer is processed at the Registry, and the intent of the owner is to transfer the registration from the previous vehicle to a newly acquired vehicle of the same type.

Restrictions on a registration transfer are: the owner must be the same on both vehicles, the transferred registration must be active, and the new vehicle must have the same type of plate.

Salvage Title

All vehicles for which an insurance company has made a total loss payment must be titled as a salvage vehicle except for vehicles 10 years or older. A vehicle which has a Salvage Title may not be provided with physical damage insurance until a new Certificate of Title is issued by the Registry. The Reconstructed or Recovered Theft Title will be awarded after the vehicle has passed a salvage inspection. The vehicle must be either towed to the salvage inspection site or a repair plate must be attached.
