AGENT		

Dear Policyholder;

This statement contains each listed operator's driving history record maintained by the Massachusetts Merit Rating Board (MRB) as of the process date shown above. The driving history information below includes one line for each at-fault accident and each traffic violation, one line for the Starting Date, and one line for the operator's Merit Rating Points or Credit Code. The Surcharge Date Column contains the date of surcharge notice for at-fault accidents and the court judgment date for traffic violations. This column on the Starting Date Line contains the beginning date of the listed operator's 6-year policy experience period or a later date if the operator has fewer than 6 years of driving experience. Note that the Surcharge Date of the accident or violation is used in the determination of Merit Rating Points or Credits rather than the Incident Date.

This statement is being provided in compliance with regulation 211 CMR 134.15. The Merit Rating Points or Credit Code for the operators listed on this policy will determine surcharges or credits if the premium for this policy was calculated using the Massachusetts Automobile Insurance Plan (MAIP) rates. If the premium for this policy was calculated using the company's rates and rules, the company's merit rating plan will determine how these driving history records are used.

19. L. e-Customer Discount and Electronic Book Transfer Discount

Discounts will be given to eligible policyholders who participate in Electronic Policy Issuance or Electronic Book Transfers. The discounts apply to parts 1-12 on the Coverage Selections Page.

e-Customer Discount

An eligible policyholder who selects Electronic Policy Issuance shall be entitled to a discount described below:

Multi-line e-Customer

1. A first-time policyholder to Safety Insurance Group who **(A)** selects Electronic Policy Issuance **on or before** the date their first policy is issued with Safety and **(B)** qualifies under Section **K** for New Business Discount for Agency Loyalty on the date of selection in **(A)**, and **(C)** qualifies under Section **G. 1.** for an Account Credit, will be eligible for a 7% discount for the first year insured, a 5% discount on the second year insured, a 3% discount on the third year insured, and a 1% discount on subsequent renewals with Safety.
2. All policyholders who select Electronic Policy Issuance and qualify under Section G.1. for an Account Credit, but do not qualify as described in **1.** will be eligible for a 5% discount on the first policy year of their selection, a 3% discount on the second year of their selection, and a 1% discount on subsequent renewals with Safety.

Mono-line Multi-car e-Customer

1. A first-time policyholder to Safety Insurance Group who (A) selects Electronic Policy Issuance on or before the date their first policy is issued with Safety and (B) qualifies under Section K for New Business Discount for Agency Loyalty on the date of selection in (A), and (C) qualifies for the multi-car discount under Section A, will be eligible for a 7% discount for the first year insured, a 5% discount on the second year insured, a 3% discount on the third year insured, and a 1% discount on subsequent renewals with Safety.
2. All first-time policyholders to Safety Insurance Group with at least 12 months of continuous coverage who are eligible for the multi-car discount under Section A and select Electronic Policy Issuance, but do not qualify as described in 1. will be eligible for a 3% discount on the first policy year of their selection, and a 1% discount on subsequent renewals with Safety.
3. All renewal Mono-line policyholders who are eligible for the multi-car discount under Section A and select

Electronic Policy Issuance, will be eligible for:

Number of Years	Discount
1 st year of selection	
Qualifies for Agency Loyalty	3%
Does not qualify for Agency Loyalty	1%
2 nd and subsequent years after selection	1%

Electronic Book Transfer Discount

An eligible policyholder who elects to move their policy from a non-Safety company into a Safety rating program and is part of a qualified book transfer meeting the underwriting rules established by the company shall be entitled to a discount described below:

A first-time policyholder to Safety Insurance Group who **(A)** elects to transfer their policy as part of an Electronic Book Transfer to Safety 30 days before the policy effective date and **(B)** is part of a qualified book transfer meeting the underwriting rules established by the company and **(C)** qualifies under Section **K** for New Business Discount for Agency Loyalty on the date of transfer in **(A)** will be eligible for a 7% discount for the first year insured with Safety, and a 5% discount on the second year insured with Safety, a 3% discount on the third year insured with Safety, and a 1% discount on the fourth year insured with Safety.

Any discounts developed in Rule **19 L.** are in addition to discounts developed in other sections of Rule 19.

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

RULE 56. MERIT RATING

Driving Record /Experience Period

Each listed operator on a policy is assigned a merit rating based on the operator's driving record. The merit rating adjustment is a factor multiplied by the otherwise applicable premium that reflects the number, type and age of at fault accidents and traffic violations of the operator during the policy experience period. The factor can be either positive or negative.

Note that the Surcharge Date of the accident or violation is used in the determination of Merit Rating Points or Credits rather than the Incident Date.

The policy experience period is defined to be the six years immediately preceding the effective date of the policy. At fault accidents or traffic violations that were surcharged (based on the surcharge date) more than five years prior to the policy effective date are not considered in the determination of the merit rate adjustment.

The merit rating adjustment will be determined based on the merit rating code reported to us by the Merit Rating Board.

Operators New to Massachusetts

If an application for insurance indicates that an operator new to Massachusetts was licensed outside of Massachusetts within the last six years or such operator is being added to an existing policy, the operator's policy experience period will begin as of the effective date of that policy until Safety receives an authorized inquiry response from the Merit Rating Board indicating the operator's merit rating code.

If an operator's Motor Vehicle Report (MVR) is electronically available, Safety will be responsible for obtaining it from the state or country where the operator was licensed. Driving history on MVR's obtained from more than one state or country will be combined by Safety and considered as one report. An acceptable MVR must have three years or more driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the MVR, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's MVR with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's merit rating code.

If an operator's MVR is not electronically available, the policy experience period for the operator will begin as of the effective date of the policy until Safety receives an authorized inquiry response from the Merit Rating Board with the operator's actual merit rating code. The operator may obtain an official driving record or a driving record from a previous insurer and submit it to Safety. If the driving record is not in English, a translation certified as true and correct by the translator must be obtained by the operator and attached to the driving record submitted to Safety. An acceptable driving record must have three or more years driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the operator's record, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's record with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's merit rating code.

Determination of Merit Rating Code

Points are assigned to an operator for each of the following at-fault accidents and traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy:

Minor traffic law violation	2 points	Major at-fault accident	4 points
Minor at-fault accident	3 points	Major traffic law violation	5 points

An "at-fault" accident is one in which Safety determines that the involved operator is more than 50% at fault. An at-fault accident is defined as minor only if it results in a claim payment for bodily injury liability, damage to someone else's property, collision or limited collision of at least \$500 and up to \$2,000. An at-fault accident is defined as major only if it resulted in a claim payment of more than \$2,000.

If the most recent at fault accident or traffic violation was surcharged (based on the surcharge date) less than three years prior to the policy effective date, the operator's merit rating code will equal the sum of the points accumulated

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

for at-fault accidents and traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy. If the most recent at fault accident or traffic violation was surcharged (based on the surcharge date) more than three years prior to the policy effective date, and the number of at fault accidents or traffic violations that were surcharged (based on the surcharge date) in the past five years is three or less, the operator's merit rating code is equal to the sum of the points accumulated for at-fault accidents or traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy minus the total number of at fault accidents or traffic violations that were surcharged (based on the surcharge date) during that same time period that resulted in points. In no event shall the points for any at-fault accident or traffic violation be reduced below zero.

Points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation.

If there are no at-fault accidents or traffic violations attributable (by surcharge date) to an operator during the six years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver Plus (merit rating code 99). If there are no at-fault accidents or traffic violations attributable (by surcharge date) to an operator during the five years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver (merit rating code 98). In addition, a merit rating of Excellent Driver (merit rating code of 98) will be assigned to an operator with at least five years of experience, with an incident free period equal to or greater than three, with one minor non criminal traffic violation that was surcharged (based on the surcharge date) in the fourth, fifth or sixth year of the experience period.

Calculation of the Merit Rate Adjustment

The merit rate adjustment is multiplied by the otherwise applicable premium for Bodily Injury (Part 1), Personal Injury Protection (Part 2), Property Damage (Part 4), Optional Bodily Injury (Part 5), and Collision (Part 7). The merit rate adjustment is the last step in the rating process after all discounts and rating factors have been applied.

Excellent Driver Discount and Excellent Driver Discount Plus

A percentage value will reflect the lower expected loss experience of operators with incident-free periods of a) more than five years and less than six years, and b) of at least six years. These percentage values may vary according to the affected Liability and Collision coverages, irrespective of the class and territory of the policy.

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

19. L. e-Customer Discount and Electronic Book Transfer Discount

Discounts will be given to eligible policyholders who participate in Electronic Policy Issuance or Electronic Book Transfers. The discounts apply to parts 1-12 on the Coverage Selections Page.

e-Customer Discount

~~**Combined Account e-Customer**~~

~~An eligible policyholder who selects Combined Account Billing with~~ Electronic Policy Issuance shall be entitled to a discount described below:

1. A first-time policyholder to Safety Insurance Group who **(A)** selects ~~Combined Account Billing with~~ Electronic Policy Issuance **on or before** the date their first policy is issued with Safety and **(B)** qualifies under Section **K** for New Business Discount for Agency Loyalty on the date of selection in **(A)**, and **(C)** qualifies under Section **G. 1.** for an Account Credit, will be eligible for a 7% discount for the first year insured, a 5% discount on the second year insured, a 3% discount on the third year insured, and a 1% discount on subsequent renewals with Safety.
2. All policyholders who select ~~Combined Account Billing with Electronic Policy Issuance and~~ do not qualify as described in 1. will be eligible for a 5% discount on the first policy year of their selection, a 3% discount on the second year of their selection, and a 1% discount on subsequent renewals with Safety.

Mono-line Multi-car e-Customer

~~An eligible policyholder who selects Electronic Policy Issuance shall be entitled to a discount described below:~~

1. A first-time policyholder to Safety Insurance Group who (A) selects Electronic Policy Issuance on or before the date their first policy is issued with Safety and (B) qualifies under Section K for New Business Discount for Agency Loyalty on the date of selection in (A), and (C) qualifies for the multi-car discount under Section A, will be eligible for a 7% discount for the first year insured, a 5% discount on the second year insured, a 3% discount on the third year insured, and a 1% discount on subsequent renewals with Safety.
2. All first-time policyholders to Safety Insurance Group with at least 12 months of continuous coverage who are eligible for the multi-car discount under Section A and select Electronic Policy Issuance, but do not qualify as described in 1. will be eligible for a 3% discount on the first policy year of their selection, and a 1% discount on subsequent renewals with Safety.
3. All renewal Mono-line policyholders who are eligible for the multi-car discount under Section A and select

Electronic Policy Issuance, will be eligible for:

Number of Years	Discount
1 st year of selection	
Qualifies for Agency Loyalty	3%
Does not qualify for Agency Loyalty	1%
2 nd and subsequent years after selection	1%

Electronic Book Transfer Discount

An eligible policyholder who elects to move their policy from a non-Safety company into a Safety rating program and is part of a qualified book transfer meeting the underwriting rules established by the company shall be entitled to a discount described below:

A first-time policyholder to Safety Insurance Group who **(A)** elects to transfer their policy as part of an Electronic Book Transfer to Safety 30 days before the policy effective date and **(B)** is part of a qualified book transfer meeting the underwriting rules established by the company and **(C)** qualifies under Section **K** for New Business Discount for Agency Loyalty on the date of transfer in **(A)** will be eligible for a 7% discount for the first year insured with Safety, and a 5% discount on the second year insured with Safety, a 3% discount on the third year insured with Safety, and a 1% discount on the fourth year insured with Safety.

Any discounts developed in Rule **19 L.** are in addition to discounts developed in other sections of Rule 19.

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

RULE 56. MERIT RATING

Driving Record /Experience Period

Each listed operator on a policy is assigned a merit rating based on the operator's driving record. The merit rating adjustment is a factor multiplied by the otherwise applicable premium that reflects the number, type and age of at fault accidents and traffic violations of the operator during the policy experience period. The factor can be either positive or negative.

The policy experience period is defined to be the six years immediately preceding the effective date of the policy. At fault accidents or traffic violations that ~~occurred~~ more than five years prior to the policy effective date are not considered in the determination of the merit rate adjustment.

The merit rating adjustment will be determined based on the merit rating code reported to us by the Merit Rating Board.

Operators New to Massachusetts

If an application for insurance indicates that an operator new to Massachusetts was licensed outside of Massachusetts within the last six years or such operator is being added to an existing policy, the operator's policy experience period will begin as of the effective date of that policy until Safety receives an authorized inquiry response from the Merit Rating Board indicating the operator's merit rating code.

If an operator's Motor Vehicle Report (MVR) is electronically available, Safety will be responsible for obtaining it from the state or country where the operator was licensed. Driving history on MVR's obtained from more than one state or country will be combined by Safety and considered as one report. An acceptable MVR must have three years or more driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the MVR, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's MVR with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's merit rating code.

If an operator's MVR is not electronically available, the policy experience period for the operator will begin as of the effective date of the policy until Safety receives an authorized inquiry response from the Merit Rating Board with the operator's actual merit rating code. The operator may obtain an official driving record or a driving record from a previous insurer and submit it to Safety. If the driving record is not in English, a translation certified as true and correct by the translator must be obtained by the operator and attached to the driving record submitted to Safety. An acceptable driving record must have three or more years driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the operator's record, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's record with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's merit rating code.

Determination of Merit Rating Code

Points are assigned to an operator for each of the following at-fault accidents and traffic violations that ~~occurred~~ during the five years immediately preceding the effective date of the policy:

Minor traffic law violation	2 points	Major at-fault accident	4 points
Minor at-fault accident	3 points	Major traffic law violation	5 points

An "at-fault" accident is one in which Safety determines that the involved operator is more than 50% at fault. An at-fault accident is defined as minor only if it results in a claim payment for bodily injury liability, damage to someone else's property, collision or limited collision of at least \$500 and up to \$2,000. An at-fault accident is defined as major only if it resulted in a claim payment of more than \$2,000.

If the most recent at fault accident or traffic violation ~~occurred~~ less than three years prior to the policy effective date, the operator's merit rating code will equal the sum of the points accumulated for at-fault accidents and traffic violations that ~~occurred~~ during the five years immediately preceding the effective date of the policy. If the most recent at fault accident or traffic violation ~~occurred~~ more than three years prior to the policy effective date, and the number of at fault accidents or traffic violations in the past five years is three or less, the operator's merit rating code is equal to the sum of the points accumulated for at-fault accidents or traffic violations that ~~occurred during the five years~~

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

RULE 56. MERIT RATING

Driving Record /Experience Period

Each listed operator on a policy is assigned a merit rating based on the operator’s driving record. The merit rating adjustment is a factor multiplied by the otherwise applicable premium that reflects the number, type and age of at fault accidents and traffic violations of the operator during the policy experience period. The factor can be either positive or negative.

Note that the Surcharge Date of the accident or violation is used in the determination of Merit Rating Points or Credits rather than the Incident Date.

The policy experience period is defined to be the six years immediately preceding the effective date of the policy. At fault accidents or traffic violations that were surcharged (based on the surcharge date) more than five years prior to the policy effective date are not considered in the determination of the merit rate adjustment.

The merit rating adjustment will be determined based on the merit rating code reported to us by the Merit Rating Board.

Operators New to Massachusetts

If an application for insurance indicates that an operator new to Massachusetts was licensed outside of Massachusetts within the last six years or such operator is being added to an existing policy, the operator’s policy experience period will begin as of the effective date of that policy until Safety receives an authorized inquiry response from the Merit Rating Board indicating the operator’s merit rating code.

If an operator’s Motor Vehicle Report (MVR) is electronically available, Safety will be responsible for obtaining it from the state or country where the operator was licensed. Driving history on MVR’s obtained from more than one state or country will be combined by Safety and considered as one report. An acceptable MVR must have three years or more driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the MVR, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator’s MVR with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator’s merit rating code.

If an operator’s MVR is not electronically available, the policy experience period for the operator will begin as of the effective date of the policy until Safety receives an authorized inquiry response from the Merit Rating Board with the operator’s actual merit rating code. The operator may obtain an official driving record or a driving record from a previous insurer and submit it to Safety. If the driving record is not in English, a translation certified as true and correct by the translator must be obtained by the operator and attached to the driving record submitted to Safety. An acceptable driving record must have three or more years driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the operator’s record, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator’s record with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator’s merit rating code.

Determination of Merit Rating Code

Points are assigned to an operator for each of the following at-fault accidents and traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy:

Minor traffic law violation	2 points	Major at-fault accident	4 points
Minor at-fault accident	3 points	Major traffic law violation	5 points

An “at-fault” accident is one in which Safety determines that the involved operator is more than 50% at fault. An at-fault accident is defined as minor only if it results in a claim payment for bodily injury liability, damage to someone else’s property, collision or limited collision of at least \$500 and up to \$2,000. An at-fault accident is defined as major only if it resulted in a claim payment of more than \$2,000.

If the most recent at fault accident or traffic violation was surcharged (based on the surcharge date) less than three years prior to the policy effective date, the operator’s merit rating code will equal the sum of the points accumulated

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

immediately preceding the effective date of the policy minus the total number of at fault accidents or traffic violations that occurred during that same time period that resulted in points. In no event shall the points for any at-fault accident or traffic violation be reduced below zero.

Points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation.

If there are no at-fault accidents or traffic violations attributable to an operator during the six years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver Plus (merit rating code 99). If there are no at-fault accidents or traffic violations attributable to an operator during the five years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver (merit rating code 98). In addition, a merit rating of Excellent Driver (merit rating code of 98) will be assigned to an operator with at least five years of experience, with an incident free period equal to or greater than three, with one minor non criminal traffic violation that occurred in the fourth, fifth or sixth year of the experience period.

Calculation of the Merit Rate Adjustment

The merit rate adjustment is multiplied by the otherwise applicable premium for Bodily Injury (Part 1), Personal Injury Protection (Part 2), Property Damage (Part 4), Optional Bodily Injury (Part 5), and Collision (Part 7). The merit rate adjustment is the last step in the rating process after all discounts and rating factors have been applied.

Excellent Driver Discount and Excellent Driver Discount Plus

A percentage value will reflect the lower expected loss experience of operators with incident-free periods of a) more than five years and less than six years, and b) of at least six years. These percentage values may vary according to the affected Liability and Collision coverages, irrespective of the class and territory of the policy.

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

for at-fault accidents and traffic violations that were surcharged (based on the surcharge date), during the five years immediately preceding the effective date of the policy. If the most recent at fault accident or traffic violation was surcharged (based on the surcharge date) more than three years prior to the policy effective date, and the number of at fault accidents or traffic violations that were surcharged (based on the surcharge date) in the past five years is three or less, the operator's merit rating code is equal to the sum of the points accumulated for at-fault accidents or traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy minus the total number of at fault accidents or traffic violations that were surcharged (based on the surcharge date) during that same time period that resulted in points. In no event shall the points for any at-fault accident or traffic violation be reduced below zero.

Points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation.

If there are no at-fault accidents or traffic violations attributable (by surcharge date) to an operator during the six years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver Plus (merit rating code 99). If there are no at-fault accidents or traffic violations attributable (by surcharge date) to an operator during the five years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver (merit rating code 98). In addition, a merit rating of Excellent Driver (merit rating code of 98) will be assigned to an operator with at least five years of experience, with an incident free period equal to or greater than three, with one minor non criminal traffic violation that was surcharged (based on the surcharge date) in the fourth, fifth or sixth year of the experience period.

Calculation of the Merit Rate Adjustment

The merit rate adjustment is multiplied by the otherwise applicable premium for Bodily Injury (Part 1), Personal Injury Protection (Part 2), Property Damage (Part 4), Optional Bodily Injury (Part 5), and Collision (Part 7). The merit rate adjustment is the last step in the rating process after all discounts and rating factors have been applied.

Excellent Driver Discount and Excellent Driver Discount Plus

A percentage value will reflect the lower expected loss experience of operators with incident-free periods of a) more than five years and less than six years, and b) of at least six years. These percentage values may vary according to the affected Liability and Collision coverages, irrespective of the class and territory of the policy.

EXPIRATION:

RENEWAL POLICY		
TRAN EFF		COV
LOC	CPY	INQ
AGENT		

Dear Policyholder;

This statement contains each listed operator's driving history record maintained by the Massachusetts Merit Rating Board (MRB) as of the process date shown above. The driving history information below includes one line for each at-fault accident and each traffic violation, one line for the Starting Date, and one line for the operator's Merit Rating Points or Credit Code. The Surcharge Date Column contains the date of surcharge notice for at-fault accidents and the court judgment date for traffic violations. This column on the Starting Date Line contains the beginning date of the listed operator's 6-year policy experience period or a later date if the operator has fewer than 6 years of driving experience. Note that the Surcharge Date of the accident or violation is used in the determination of Merit Rating Points or Credits rather than the Incident Date.

This statement is being provided in compliance with regulation 211 CMR 134.15. The Merit Rating Points or Credit Code for the operators listed on this policy will determine surcharges or credits if the premium for this policy was calculated using the Massachusetts Automobile Insurance Plan (MAIP) rates. If the premium for this policy was calculated using the company's rates and rules, the company's merit rating plan will determine how these driving history records are used.

EXPIRATION:

RENEWAL POLICY		
TRAN EFF		COV
LOC	CPY	INQ
AGENT		

Dear Policyholder;

This statement contains each listed operator's driving history record maintained by the Massachusetts Merit Rating Board (MRB) as of the process date shown above. The driving history information below includes one line for each at-fault accident and each traffic violation, one line for the Starting Date, and one line for the operator's Merit Rating Points or Credit Code. The Surcharge Date Column contains the date of surcharge notice for at-fault accidents and the court judgment date for traffic violations. This column on the Starting Date Line contains the beginning date of the listed operator's 6-year policy experience period or a later date if the operator has fewer than 6 years of driving experience. Note that the Surcharge Date of the accident or violation is used in the determination of Merit Rating Points or Credits rather than the Incident Date.

This statement is being provided in compliance with regulation 211 CMR 134.15. The Merit Rating Points or Credit Code for the operators listed on this policy will determine surcharges or credits if this policy was assigned through the Massachusetts Automobile Insurance Plan (MAIP). If this policy was obtained through the voluntary market, the insurance company's merit rating plan will determine how these driving history records are used.

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

19. L. e-Customer Discount and Electronic Book Transfer Discount

Discounts will be given to eligible policyholders who participate in Electronic Policy Issuance or Electronic Book Transfers. The discounts apply to parts 1-12 on the Coverage Selections Page.

e-Customer Discount

An eligible policyholder who selects Electronic Policy Issuance shall be entitled to a discount described below:

Multi-line e-Customer

1. A first-time policyholder to Safety Insurance Group who **(A)** selects Electronic Policy Issuance **on or before** the date their first policy is issued with Safety and **(B)** qualifies under Section **K** for New Business Discount for Agency Loyalty on the date of selection in **(A)**, and **(C)** qualifies under Section **G. 1.** for an Account Credit, will be eligible for a 7% discount for the first year insured, a 5% discount on the second year insured, a 3% discount on the third year insured, and a 1% discount on subsequent renewals with Safety.
2. All policyholders who select Electronic Policy Issuance and qualify under Section G.1. for an Account Credit, but do not qualify as described in 1. will be eligible for a 5% discount on the first policy year of their selection, a 3% discount on the second year of their selection, and a 1% discount on subsequent renewals with Safety.

Mono-line Multi-car e-Customer

1. A first-time policyholder to Safety Insurance Group who (A) selects Electronic Policy Issuance on or before the date their first policy is issued with Safety and (B) qualifies under Section K for New Business Discount for Agency Loyalty on the date of selection in (A), and (C) qualifies for the multi-car discount under Section A, will be eligible for a 7% discount for the first year insured, a 5% discount on the second year insured, a 3% discount on the third year insured, and a 1% discount on subsequent renewals with Safety.
2. All first-time policyholders to Safety Insurance Group with at least 12 months of continuous coverage who are eligible for the multi-car discount under Section A and select Electronic Policy Issuance, but do not qualify as described in 1. will be eligible for a 3% discount on the first policy year of their selection, and a 1% discount on subsequent renewals with Safety.
3. All renewal Mono-line policyholders who are eligible for the multi-car discount under Section A and select

Electronic Policy Issuance, will be eligible for:

Number of Years	Discount
1 st year of selection	
Qualifies for Agency Loyalty	3%
Does not qualify for Agency Loyalty	1%
2 nd and subsequent years after selection	1%

Electronic Book Transfer Discount

An eligible policyholder who elects to move their policy from a non-Safety company into a Safety rating program and is part of a qualified book transfer meeting the underwriting rules established by the company shall be entitled to a discount described below:

A first-time policyholder to Safety Insurance Group who **(A)** elects to transfer their policy as part of an Electronic Book Transfer to Safety 30 days before the policy effective date and **(B)** is part of a qualified book transfer meeting the underwriting rules established by the company and **(C)** qualifies under Section **K** for New Business Discount for Agency Loyalty on the date of transfer in **(A)** will be eligible for a 7% discount for the first year insured with Safety, and a 5% discount on the second year insured with Safety, a 3% discount on the third year insured with Safety, and a 1% discount on the fourth year insured with Safety.

Any discounts developed in Rule **19 L.** are in addition to discounts developed in other sections of Rule 19.

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

RULE 56. MERIT RATING

Driving Record /Experience Period

Each listed operator on a policy is assigned a merit rating based on the operator's driving record. The merit rating adjustment is a factor multiplied by the otherwise applicable premium that reflects the number, type and age of at fault accidents and traffic violations of the operator during the policy experience period. The factor can be either positive or negative.

Note that the Surcharge Date of the accident or violation is used in the determination of Merit Rating Points or Credits rather than the Incident Date.

The policy experience period is defined to be the six years immediately preceding the effective date of the policy. At fault accidents or traffic violations that were surcharged (based on the surcharge date) more than five years prior to the policy effective date are not considered in the determination of the merit rate adjustment.

The merit rating adjustment will be determined based on the merit rating code reported to us by the Merit Rating Board.

Operators New to Massachusetts

If an application for insurance indicates that an operator new to Massachusetts was licensed outside of Massachusetts within the last six years or such operator is being added to an existing policy, the operator's policy experience period will begin as of the effective date of that policy until Safety receives an authorized inquiry response from the Merit Rating Board indicating the operator's merit rating code.

If an operator's Motor Vehicle Report (MVR) is electronically available, Safety will be responsible for obtaining it from the state or country where the operator was licensed. Driving history on MVR's obtained from more than one state or country will be combined by Safety and considered as one report. An acceptable MVR must have three years or more driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the MVR, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's MVR with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's merit rating code.

If an operator's MVR is not electronically available, the policy experience period for the operator will begin as of the effective date of the policy until Safety receives an authorized inquiry response from the Merit Rating Board with the operator's actual merit rating code. The operator may obtain an official driving record or a driving record from a previous insurer and submit it to Safety. If the driving record is not in English, a translation certified as true and correct by the translator must be obtained by the operator and attached to the driving record submitted to Safety. An acceptable driving record must have three or more years driving history, unless the operator has been licensed less than three years. If there are no motor vehicle violations or at-fault accidents shown on the operator's record, Safety will submit a policy inquiry to the Merit Rating Board in compliance with its Administrative Procedures. An operator's record with motor vehicle violations or at-fault accidents will be submitted to the Merit Rating Board. The Merit Rating Board will determine the operator's merit rating code.

Determination of Merit Rating Code

Points are assigned to an operator for each of the following at-fault accidents and traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy:

Minor traffic law violation	2 points	Major at-fault accident	4 points
Minor at-fault accident	3 points	Major traffic law violation	5 points

An "at-fault" accident is one in which Safety determines that the involved operator is more than 50% at fault. An at-fault accident is defined as minor only if it results in a claim payment for bodily injury liability, damage to someone else's property, collision or limited collision of at least \$500 and up to \$2,000. An at-fault accident is defined as major only if it resulted in a claim payment of more than \$2,000.

If the most recent at fault accident or traffic violation was surcharged (based on the surcharge date) less than three years prior to the policy effective date, the operator's merit rating code will equal the sum of the points accumulated

SAFETY INSURANCE GROUP MASSACHUSETTS PERSONAL AUTO MANUAL

for at-fault accidents and traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy. If the most recent at fault accident or traffic violation was surcharged (based on the surcharge date) more than three years prior to the policy effective date, and the number of at fault accidents or traffic violations that were surcharged (based on the surcharge date) in the past five years is three or less, the operator's merit rating code is equal to the sum of the points accumulated for at-fault accidents or traffic violations that were surcharged (based on the surcharge date) during the five years immediately preceding the effective date of the policy minus the total number of at fault accidents or traffic violations that were surcharged (based on the surcharge date) during that same time period that resulted in points. In no event shall the points for any at-fault accident or traffic violation be reduced below zero.

Points are not assigned to a non-criminal minor motor vehicle traffic law violation if it is the first such violation.

If there are no at-fault accidents or traffic violations attributable (by surcharge date) to an operator during the six years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver Plus (merit rating code 99). If there are no at-fault accidents or traffic violations attributable (by surcharge date) to an operator during the five years immediately preceding the policy effective date, the operator's merit rating is Excellent Driver (merit rating code 98). In addition, a merit rating of Excellent Driver (merit rating code of 98) will be assigned to an operator with at least five years of experience, with an incident free period equal to or greater than three, with one minor non criminal traffic violation that was surcharged (based on the surcharge date) in the fourth, fifth or sixth year of the experience period.

Calculation of the Merit Rate Adjustment

The merit rate adjustment is multiplied by the otherwise applicable premium for Bodily Injury (Part 1), Personal Injury Protection (Part 2), Property Damage (Part 4), Optional Bodily Injury (Part 5), and Collision (Part 7). The merit rate adjustment is the last step in the rating process after all discounts and rating factors have been applied.

Excellent Driver Discount and Excellent Driver Discount Plus

A percentage value will reflect the lower expected loss experience of operators with incident-free periods of a) more than five years and less than six years, and b) of at least six years. These percentage values may vary according to the affected Liability and Collision coverages, irrespective of the class and territory of the policy.
