

ITSFiber Business Conference Calling

Meetings on-the-fly with ITS Fiber Cloud Voice Audio Conferencing

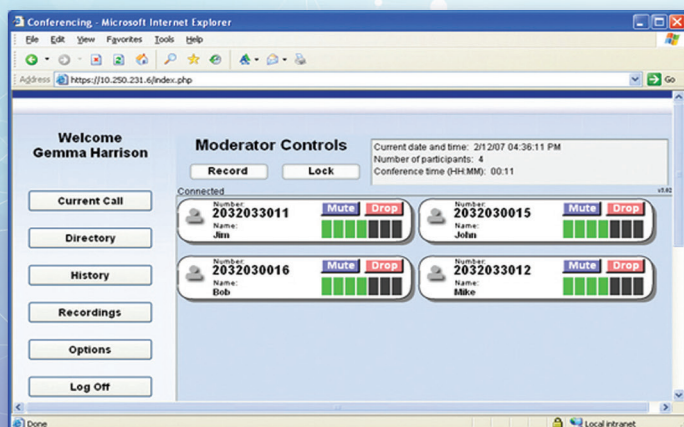

Our on-demand Conference Calling feature is an easy-to-use service to enhance your business productivity.

Fast, efficient on-demand Business Conference Calling from ITS Fiber offers a low cost complete conference calling solution with no reservations required and no time limits imposed. Simply dial the number of your virtual conference and enter your Identification code. It's that simple!

Take Charge of Your Conferences with Easy-to-Use Features

Once in your virtual conference room, use easy-to-follow audio prompts and a host of features to take complete control of your conference. Use our Moderator Web Interface for even greater functionality and control of features including:

- **Recording a Conference**—Record your conversations for future review and transcription. Simply initiate system recording through your phone prompt or web interface. At the end of the conference call, your recording will be available in .WAV format for download through your moderator web interface. Easily archive or distribute the audio file via email.
- **Muting** — Mute all participants for an important announcement or mute selectively as the topic requires. You can also enable individual participants to mute themselves in the event of line static or background noise.
- **Lock and Roll Call Conference Participants** — For enhanced security and no interruptions, you may take a roll call of all conference participants and then lock your conference room once all participants are present.
