## Fax Agent Service

### Looking for a top tier fax solution?

**We've got the solution for you:** ITS Fiber's FaxAgent. FaxAgent is a robust high availability, low failure rate fax over IP solution that is accessed via a secure, Cloud Voice Phone Service connection. Let us handle all the complexities of managing and delivering faxes, while you focus on important aspects of your business. FaxAgent allows for efficient communication between departments or with other organizations who rely on faxing, which helps to increase productivity and accuracy while decreasing costs.

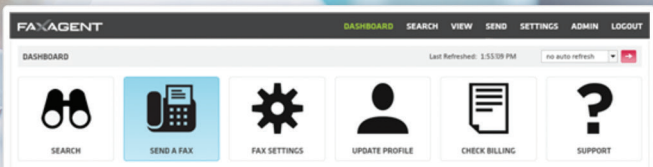

#### Benefits

- Users have total access to send, receive and monitor fax requests over a secure IP-enabled network
- Companies can use their existing fax numbers
- Support remote fax machines behind analog lines with FaxBridge devices
