

ITSFiber

TOP 10 REASONS

10 Reasons Why ITS Fiber Is The Best Choice For Your Business

1

We're Local

You get to know us by name. The service and support your business deserves is hard to come by. Not with ITS Fiber. We assist your business on a one-on-one basis.

2

We Offer A Complete Package of Services

ITS Fiber can deliver a full range of telecommunication and technology services, allowing us to be the one source to go to for Internet, Cloud Voice, IT and Data Center Services (Managed IT, Cloud and Colocation services).

3

Our Fiber-Optic Network is Reliable and 100% Underground.

Internet is the life-blood of businesses today you can't afford to have inconsistent service that goes down frequently. That's why our network is underground end-to-end and connected to our own secure, commercial data center located 30 miles inland and 40 ft. above sea level in a hurricane-resistant zone.

4

ITS Fiber Internet is *Symmetrical*

Symmetric Internet (same upload and download speed) is our superior product that increases productivity, enhances the use of cloud technology and Wi-Fi, and is not found standard with other local providers.

5

We've Got Gigabit Internet

Today's companies need "more" Internet capacity to support everything from cloud backup to large in-office wireless networks. Your tenants will benefit greatly with choices from 100/100 Mbps up to 1000/1000 Mbps (1 Gigabit).

6

Our Voice service is in the "Cloud"

Cloud Voice caters to the modern company for their office phones, satellite offices and remote workers to communicate easily anytime, anywhere from any device.

7

We Provide Better IT and Network Solutions

Full array of IT and computing services offered from internal wiring, to network solutions and hardware to Wi-Fi setup, computers, phones, printers, managed support and more.

8

We've Got Your Back(up)

Are you prepared for a business disaster? If not, we can help you prepare a disaster recovery solution and plan for your important files and data with our cloud backup and cloud server solutions.

9

We've Got History

Over 80 years doing business in Martin County and one of the 13 original telecommunication companies in Florida proves our deep roots in the community.

10

Noticeably Better Service

That's our mission. We promise to be noticeably better than our competitors in all areas: both products and customer service. Both you and your tenants will see the difference when you are able to engage with local people, develop personal relationships with staff, and receive top quality customer care.
