COVID-19

We appreciate how our customers have complied with helping keep our employees and themselves safer by calling or emailing to ask questions or get information on new services, by using our online web portal to pay bills or by keeping safe social distancing from our technicians when they need to make a service call to a home.

Our Customer Experience Reps continue to safely serve customers in Indiantown.

With this current situation, we can't emphasize enough how much we value our customers and their loyalty to us. Our "noticeably better" Customer Experience Team recently shared with our staff a wonderful hand-written letter from a customer which is an example of this loyalty and the kind of relationship we aspire to achieve with all of you. Here is the letter:

Thank you all for being loyal ITS Fiber customers.
