## Hype-Hype Hooray!

It's disrupting the world of recruitment so how can you cut through all the noise of technology to find the right tools to compete in the war for talent?

Recruitment technology has become critical infrastructure for companies looking to deliver the best experience to candidates and hiring managers. Join us at our upcoming event where AGS' technology expert will share learnings from the most mature markets around the globe on:

- » What "SaaSy" platforms can really make a positive impact on user experience?
- » How do you square the circle of automation for productivity gains and at the same time meet rising expectations of personalised engagement?
- » How do you build a business case to support an automation and technology roadmap?

#### ABOUT THE SPEAKER

Steve Parker is the Director of RPO Technology at Allegis Global Solutions and is responsible for the overall strategy and growth of technology and innovation across our client base. Steve Parker oversees solution architecture, technology partnership management and new product development utilizing a suite of proprietary and industry leading technologies.
