

# T1V Active Learning Technology Grant

2019 Program Overview + Application

Texas A&M University | February 20-21, 2019

# Program Overview

T1V is excited to offer a unique active learning grant for leaders in higher education. This grant will provide winners the opportunity to visit the Texas A&M University College of Engineering Zachry Complex in College Station, Texas.

The Texas A&M Zachry Complex is one of the most advanced active learning technology deployments in the country with 18, 100-person learning studios and 14, 50-person learning studios. We invite you to experience the Zachry Complex and interact with the team responsible for this state-of-the-art learning environment.

You'll meet with IT/Technology decision makers and Instructors, all while touring the facility and observing the classroom technology in action. You'll hear from fellow active learning professionals from around the country, and together you'll experience and reflect on Texas A&M's classroom technology.

## Expected Outcomes

After your two-day and one-night experience, you'll walk away with the following:

- Learnings from Texas A&M: how they qualified, vetted, tested, and deployed ALC technology
- Best practices in ALC technology deployments
- Do's and Don'ts of ALC technology: what to look for, what to avoid, and how to create buy-in
- Student and Instructor outcomes
- Ideas on how to support remote and guest instructors on your campus
- Lessons learned from your peer group, who have also deployed ALC technology and are still on a quest to find the right solution for their campus
