AVIGILON SECURITY CAMERA CHECKLIST

Are you using the best camera for the situation you are trying to capture? Security managers oversee a multitude of issues within the network and equipment. Manufacturing or electrical failures result in frustration and often force managers to be reactive and not proactive.

Get proactive with the TTI Security Camera Checklist:

- ☑ **My business has the right amount of cameras installed**

- ☑ **I have oversaturated a specific area with cameras**

  - ☑ Do you know that one camera would do the same and not be intrusive to your architecture?

- ☑ **I am paying for manufacturer support on licenses**

  - ☑ Do you know your license options and where to save money?

- ☑ **Still running cameras on analog**

- ☑ **I check my cameras once a month to ensure they are all working properly**

- ☑ **My video images are clear enough to make out a license plate or face**

- ☑ **My cameras work in low or no light situations**

AVIGILON SECURITY CAMERA CHECKLIST

✔ My cameras work in the snow and rain

✔ I can view my cameras on my phone, iPad and/or remotely

✔ The local police can view my surveillance videos

✔ I am aware of how many users are authorized to review my surveillance videos

✔ Our users have training regularly on our equipment

✔ The length of time it takes for me to export evidence is manageable and is time-stamped for prosecution

✔ All of my cameras are running the latest software

✔ My server (s) is set-up to retain the correct number of days. I am aware of how many days it should be retaining information

✔ We have a budget to allow for a new camera project when we need it

✔ My video is choppy

✔ It can take hours to search for specific events, which is not ideal

✔ I am monitoring the security of my network to ensure no one can hack into my system through my cameras

If by reviewing this checklist and you are left with questions on the security of your network and the quality of your cameras, a quick conversation with Turn-key Technologies can help you rest a little easier.
