FEATURES

AUTOMATIC POSITION POSTING

Engage the right applicants on the right channels for driving a talent pipeline to your requisitions, all with the click of a button.

APPLICANT EVALUATION + VIRTUAL INTERVIEW

During the application process, Hyrell automatically ranks each applicant according to criteria that you set and quickly identifies your top prospects.

CUSTOM BRANDED HIRING CENTER

Each account includes a personalized URL and franchise branded hiring center adding a professional touch to your recruiting process.

APPLICANT TRACKING

Hyrell was built to efficiently track your applicants throughout every step of the hiring process in a centralized online system. You have clear visibility over your entire hiring process.

HIRING ANALYTICS + REPORTING

Gain insight on your own hiring processes to understand and establish what works best. Both customizable and default reports are available for a full view on your hiring system.

APPLICANT COMMUNICATION

Keep your talent pool warm with automated communication, retaining a higher number of applicants that would otherwise lose interest. At each step in the screening process, quickly touch base with selected candidates through mass messaging.
