

GeoPoll Researcher in Nairobi, Kenya

The Role

GeoPoll is looking to hire an early-career Researcher in Nairobi Kenya who will be responsible for assisting on day-to-day activities of client projects and assisting to establish a framework of best practices for GeoPoll and its client base. A strong sense of commitment to GeoPoll's mission is a must.

This position will work in Nairobi, Kenya. This position will report to the Research Team Director in D.C. The Researcher is expected to work closely with colleagues in Kenya and virtually with colleagues in in GeoPoll's Washington DC and Denver Colorado offices as well. Relocation is not available for this role.

Job Responsibilities:

- Enhance data collection services including survey design, sample management, survey implementation, case study development, and reporting.
- Coordinate on projects with diverse partners and clients for survey design and research.
- Engage in day to day research tasks such as open-ended coding, data preparation and quality control
- Develop a research strategy for leveraging the GeoPoll platform to improve both understanding of population behavior, needs, and vulnerabilities as well as capacity to monitor and evaluate the impacts of client projects, policies and programs;
- Perform case studies with existing data sets and mobile surveys to explore a new methodology of research and modular analysis;
- Assist in strategically thinking about mobile surveys, uses of data, and information design;
- Implement any software required for accessing and handling data appropriately;
- Visualize and report data findings creatively in a variety of formats.

Desired Skills & Experience

- Graduation in top of class at top schools with technical degree
- 2 to 3 years of experience in major research or technology companies or organizations.
- Demonstrated knowledge of Microsoft Excel and/or other statistical software like R, SPSS, and Stata.
- Helpful if experience with survey design, analysis, and reporting.
- Superior communication skills, both written and verbal.
- Extremely self-motivated and highly organized.
- Ability to work under pressure while maintaining accuracy and attention to detail.
- Enjoys a fun, dynamic and challenging work environment within a start-up culture.
- Open to collaborate and work with people of different nationalities and competency levels.
- Fluent written and oral English required. French, Spanish, Arabic, or other languages are an asset.

Compensation and Benefits

- Competitive salary commensurate with experience.
