

**AVENUE**  
WEST END

1025 – 5th Avenue SW, Calgary, Alberta

Dear Mike,

Please pass our sincere Thank You to the Calgary Police Department, the 911 operators and your Sonitrol monitoring personnel for their terrific work in apprehending 3 criminals who broke into my construction site just after midnight this morning. Your system tripped the moment these clowns breached our fence line; your staff were immediately on the line with 911; and the Calgary Police were on their way!

As you know, construction delays resulting from vandalism and theft on sites is a huge issue in our industry; and the benefits your system bring to our operation are invaluable in keeping our jobs on time and on budget. Since 2011, we have been using your VERIFIED Sonavision Live Monitored Video systems on a number of our sites – saving us roughly 75% on our security budget – and giving us far better protection than a static (sometimes sleeping) security guard. We are very happy we made the decision to partner with Sonitrol for our site protection needs.

Again, a huge Thank You to the responding officers from the Calgary Police, the 911 operators and the Sonitrol central station monitoring staff for their outstanding work overnight!

Sincerely,

Dave Maruschak  
Site Superintendent  
Cressey – Avenue in Calgary
