My Commitment to Driving Safely

Airswift endorses a safe driving culture to protect life and limb, establishing the obligation of employees in helping to deliver a safe driving environment on site and on the roadways. Airswift management seeks to establish a partnership where the employer and the employee adopt a safe approach to the practice of driving as they would to any other work-related practice.

I commit to driving safely by always following the below rules:

- ✓ Be a safe and defensive driver every day
- ✓ Understand the driving hazards I can face on the road
- ✓ Be trained and licensed for the vehicle I drive
- ✓ Perform a 360 inspection before driving out – Circle of Safety
- ✓ Wear a seat belt and ensure my passengers do so
- ✓ Follow traffic rules and obey signs and signals
- ✓ Use my turn signals
- ✓ Know how to respond to an accident
- ✓ Do not use my cellphone while driving
- ✓ Come to a complete stop at a Stop sign
- ✓ Do not drive under the influence of drugs or alcohol

I understand the great responsibility I have in safeguarding the lives of others and myself when I get behind the wheel. I also understand that my choices can have a life-changing effect on those who care about me, especially if my decisions lead to a crash. I pledge to drive safely and to minimize my risks, and I hope to lead by example on work site as well as on roadways, because my family and friends are out there on the roadways – as drivers, motorcyclists, bicyclists, or pedestrians – and I want to protect their lives.
