WORKING FROM HOME
MADE EASY WITH MICROSOFT TEAMS

Make working from home easier, more secure and more productive with Microsoft Teams from just £82.50* per user (one off).

Microsoft Teams is the most popular home working tool with over 44 Million daily active users communicating, sharing and collaborating across multiple locations and devices.

This deployment offers the Company a tactical 'Core' Teams platform that provides;

- Company wide messaging
- Online meetings via audio/video conferences
- Additional MultiFactor Authentication for secure remote log in
- Teams Training
- Support 24/7
- Available on mobile, iPad, MAC and PC
- Works with your existing browser (so no Corporate device required)

This will enable your users to work from home securely whilst easily communicating with other staff members and quickly arranging conference calls (audio and/or video).

This 'Core' deployment can be added to with features such as;

- Email migration (to replace hosted or local email)
- VPN (to connect to the network/files)
- Telephony (make/receive calls from anywhere as if in the office)

Requires 365 licenses already otherwise a monthly subscription to 365 will be provided at additional cost.
*based on 50 user Teams Core implementation and 2000 Support Tokens.

Microsoft Teams Fixed Cost packages

Assumes you have Office 365 licenses already (otherwise they can be included on a monthly subscription)
