National Tax Search applies twenty years of experience and powerful technology to limit our clients' exposure to unforeseen collateral loss related to taxes, HOA dues, or inaccurate flood determination. We work with some of the largest lenders and investors in the nation and all U.S. territories as well as smaller regional firms. NTS is known for personalized, dedicated service, flexible technology, the ability to provide its services at scale with guaranteed accuracy.

We provide a unique combination of expertise, technology and service. Our turnkey solution for residential and commercial lenders, real estate investors and owners reduces risk and simplifies processing of tax, HOA and condo association dues, and flood zone verification. The NTS platform is a powerful cloud-based system that automates reporting and payment processing at scale. Our solutions seamlessly integrate with internal systems and business processes, therefore simplifying implementation and workflow. Unlike other vendors, NTS offers guaranteed accuracy and flexible service for optimal performance and satisfaction.
