Healthcare
Quality
Compliance

*100% compliance
with NABH, JCI
and other
regulations*

Digitize and Automate Your Healthcare Quality Compliance

NABH, JCI and other healthcare standards demand strict adherence. HxCentral quality compliance solution makes it simple to manage and yet be fully compliant with standards.

HxCentral enables you to stay on top of all the KPIs and be compliant with NABH, JCI, HAAD-JAWAD and other standards. You can define the KPIs within the system and achieve your goals with ease. The solution comes with a pre-built definition for all NABH KPIs, ready for your use. You can achieve major tasks, such as KPI owner assignment, defining and mapping KPI data with internal and external data, automated KPI calculation and detailed KPI tracking and reports.

The solutions also tracks the lifecycle of every license/entitlement and sends automated triggers to respective departments / personnel for timely renewal to ensure 100% adherence and compliance.

Perform audits faster with the ease of multi-channels - mobile/tab/kiosk/web. You can build audit templates of your choice, automate compliance score calculation, auto-schedule the audits, trigger audits from internal and external systems and get automated alerts for lower compliance scores.

HxCentral Quality Compliance at a Glance

100%
compliance with NABH, JCI and other regulations

104
pre-built KPI definitions available

Conduct your internal audits in an effortless yet detailed manner

Track and manage clinical privileges and ensure right patient care

Real-time insights to help you track the KPIs to closure

The screenshot displays the HxCentral web application interface. The top navigation bar includes the 'hxcentral' logo and a search icon. Below the navigation bar, there are tabs for 'Vendor', 'Contracts', 'Budget Master', 'KPI', and 'CPM'. The 'KPI' tab is currently selected. The main content area shows a list of KPIs under the heading 'KPI Master - Service Desk'. Each KPI entry includes a checkbox, a KPI ID, a status (Active), a KPI Name, a Reference (HAAD), a KPI ID, and a Numerator Form. The KPIs listed are:

KPI ID	Status	KPI Name	Reference	KPI ID	Numerator Form
KPI-SD/00005	Active	Patient Safety - Fall	HAAD	Q1012	SapphireHealth - Type
KPI-SD/00004	Active	MORO	HAAD	Q1006	SapphireHealth - Type
KPI-SD/00003	Active	Pulmonary Embolism	HAAD	Q1005	SapphireHealth - Type
KPI-SD/00002	Active	Surgical Site Infection	HAAD	Q1004	SapphireHealth - Type
KPI-SD/00001	Active	Adverse Events	HAAD	Q1001	SapphireHealth - Item
	Active	Compliance Data In Hand	NABH	Q1003	SapphireHealth - Category

HxCentral Healthcare Quality Compliance Features

Define, classify and schedule KPIs
