

# Live Online Training

## Interactive Virtual Training a Guaranteed Path to Success

Live Online Training’s interactive instruction keeps participants engaged and accountable while shortening the study cycle. Candidates are better prepared for their licensing exam and require lower onboarding investment.

### Virtual Training Experience

Our Live Online Study Packages allow candidates nationwide to benefit from an affordable and effective learning solution from where every they are.

During virtual sessions, industry-experts present over a live webcam feed, putting a face to the voice; the platform also allows candidates to ask questions directly or through chat.

The training sessions cover key concepts from the licensing exam in depth. Reinforcement of course material is also provided throughout the session with interactive quizzes.

Candidates also receive Live Online Workbooks for Candidates to follow along with Instructors, take notes, and focus on the material being covered.

Insurance and securities online training sessions are held frequently, and recorded sessions are available 24/7. Check the Live Online Calendars for actual dates. Below is an example our monthly calendar.
