

# Partner with Eggplant

Join a select group of Eggplant partners, and give your customers access to mind-blowing technology that you won't find anywhere else.

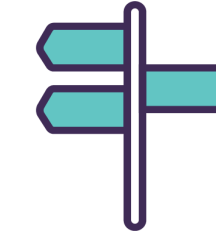

At Eggplant, we enable customers to create amazing digital experiences that deliver the right business outcomes. Our market-leading test automation and monitoring solutions are already streets ahead. And they're evolving all the time.

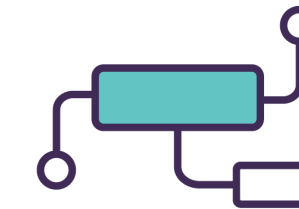

AI-driven test automation that actively hunts for bugs

Predictive release analytics that help predict business impact of a release

Optimize UX by seeing how people actually use your product and optimize their experience.

Integration with real user monitoring for continuous intelligent test automation that draws on real user data

We can automate *anything*.

Voted best DevOps tool in the Codie awards 2019 and a recognized leader in the 2018 Gartner Magic Quadrant and 2018 Forrester Wave.

# Join Eggplant

# Three ways to partner

## Reseller

Deliver the Eggplant platform directly to your customers with access to support, services, and technical training.

## Service provider

Leverage the Eggplant platform to provide best in class services around quality assurance and user experience.

## System integrator

Eggplant partners with leading global system integrators to deliver comprehensive, world-class digital transformation that drive successful business outcomes.

*"Talent wins games, but teamwork and intelligence win championships." - Michael Jordan*

Being an Eggplant Approved Service Provider means you offer best-in-class services. It's a mark of distinction telling your customers that you are recognized as one of the top partners in our ecosystem.

At Eggplant we help businesses to test, monitor and analyze their end-to-end customer experience and continuously improve their business outcomes. We provide business with award winning software such as the winner of Codie's Best DevOps tool 2019 - eggplant Digital Automation Intelligence Suite.

Companies worldwide use Eggplant to surpass competitors, boost productivity, and delight customers. How? By dramatically enhancing the quality, responsiveness, and performance of their software applications across different interfaces, platforms, browsers, and devices—including mobile, IoT, and desktop—in agile, DevOps, and innovative application and data environments.

We are a global company serving more than 650 enterprise customers in over 30 countries. Sectors include automotive, defense and aerospace, financial services, healthcare, media and entertainment, and retail. Eggplant is backed by The Carlyle Group (NASDAQ: CG).
