## TAP INTO THE LARGEST TRADING NETWORK

Connect your business to over 1500 companies worldwide with SPS Commerce, the most powerful EDI solution on the market. After all, it's all about who you know.

## IMPROVE YOUR EDI PROCESSING

SalesPad EDI employs a ready-made, easy to use integration that seamlessly exchanges data out of and into SalesPad Desktop for omnichannel retail operations.

## STREAMLINE YOUR WORKDAY

Don't spend your day micromanaging your systems; let EDI transactions happen behind the scenes via workflow. Free up your time to devote your attention to your business.

## COMMUNICATE WITH RETAIL STANDARD XML

Ensure that your product information is interpreted accurately across all platforms by utilizing retail standard XML (RSX), and eliminate the possibility for translation errors.

## PLAN OUT THE DAY WITH THE EDI SCHEDULER

Create a manageable schedule for the system to retrieve any new incoming EDI documents from the server, then automatically process the documents.

## TIGHTEN UP YOUR DOCUMENT MANAGEMENT

With SalesPad EDI, you can easily catch errors and flag documents based on customized business defined rules. Don't let anything slip through the cracks.

## KEEP TABS ON WHAT'S HAPPENING

Quickly view audit trails to ensure successful receiving and sending of EDI transactions. Any issues will be easy to spot and easy to resolve and/or track down.

## CREATE YOUR OWN EDI DOCUMENT TYPES

If the default EDI document mappings provided by SalesPad aren't sufficient, make your own! Use these mappings to work with all trading partners, or specific ones.

**From warehouse to big box.**

Powered by SPS Commerce, SalesPad EDI connects to the leading cloud-based network for omnichannel retail operations. Users can eliminate manual entry of purchase orders, sales, notices, and invoices with trading partners. SalesPad EDI takes the complexity out of electronic data interchanges and breaks down the barriers of connecting to vendors. SalesPad Desktop's intuitive, rules-based workflow, in conjunction with SalesPad EDI, provides a complete control of your sales order and fulfillment processes when selling through your trading network.

#### **WHY SALESPAD EDI?**

SalesPad EDI brings your omnichannel sales game to the next level. With SalesPad EDI, you're playing with the

big kids. Meet the demands of big-box retailers, and rest easy knowing that SalesPad EDI is working hard in the background to keep everything running smoothly. With the EDI scheduler, you can manage demands on your server and ensure that every document flows through the system without a hitch.

SalesPad EDI adapts to your business. There are a lot of great out-of-the-box features that are ready to go when you are, but that's only the beginning of what SalesPad EDI can do for your company. From custom EDI document types to unique business mappings to easily adaptable workflows, SalesPad EDI works with you to do better business. Through customized scripting, SalesPad EDI can be tailored to meet your specific business needs.
