This home plan makes the most of the indoor and outdoor living. A versatile first floor features customizable flex space, additional storage and access to the garage and second floor. Upstairs, the open plan flows from living onto a well-appointed kitchen with plenty of counter space. Flow continues with a half bath for guest use and the master suite. The master suite offers a walk-in closet, and private full bath. The third floor is where this plan really takes advantage of the outdoor relationship, with loft space opening onto a generous, private outdoor deck to take in the landscape all around you. Two additional bedrooms, laundry room and full bath complete this dynamic townhome.
