# Solar That Pays For Itself

## Enjoy hot water and even hotter savings with Solene Solar Hot Water Systems.

Get all the convenience of traditional water heaters while eliminating traditional costs, emissions and hassles. Solene's cutting-edge solar-thermal technology gives you immediate savings on your monthly power bill. Plus, federal tax credits and state and utility incentives mean even bigger savings on your investment. Solene systems are maintenance free and long lasting so you can reap the rewards and make a positive environmental impact for years to come.

Start using the sun's awesome power today to improve your life and save you money. Get Solene, the solar hot water system that pays for itself.

### The Quality Choice

Solene is dedicated to helping consumers save money by providing clean, cost-effective solar hot water systems, produced by one of the world's largest solar manufacturers with more than 30 years of continuing technological and warranty excellence.

Benefits You and the Environment

## Fantastic Features

### Super Savings

- Smaller Power Bills – Solene systems reduce water-heating costs by 75-90%.
- Pays for Itself – Initial costs offset in about 5 years.
- Tax Credits – Thousands of dollars may be deducted from your tax return.

### Efficient Durability

- Top of the line product – Solene uses only the highest rated collectors in the industry.
- Fully Automated – Pump and controller are automatically activated by the sun
- Constant Heating – Back-up heating element means you always have hot water even during extended cloudy periods.
- Quality Guaranteed – Our Lifetime Limited Warranty is the best in the industry.

### Neighborhood Friendly

- Great Design – Multiple panel sizes and colors integrate nicely with your roof.
- Green Smart – Solene harnesses the most powerful, clean and free energy source available, the sun.
