

Digital Pass

When people physically return to work, how will we keep them healthy and safe? How will we manage our limited work space in order to maintain social distancing? How will we ensure the risk of spreading COVID-19 is monitored for the well-being of all people?

Needs in the Post-COVID-19, New Normal

Employers

- Minimize employee risk
- Improve employee confidence
- Manage space and ensure safe seating
- Detect emerging threats
- Mitigate employer liability risk

Workplace/Office

- Essential personnel continue working
- Non-essential workforces to return to workplaces soon
- Property managers need to provide a safe, compliant workplace to tenant organizations
- Return to a safe workplace

Employees

- Includes Contractors & Visitors*
- Be confident in employer plan
 - Stay healthy
 - Be informed of plan changes

Regulatory Authorities

- Guidelines & mitigation measures
- Symptoms reporting

Digital Pass Solution

Enterprise Mobile Application

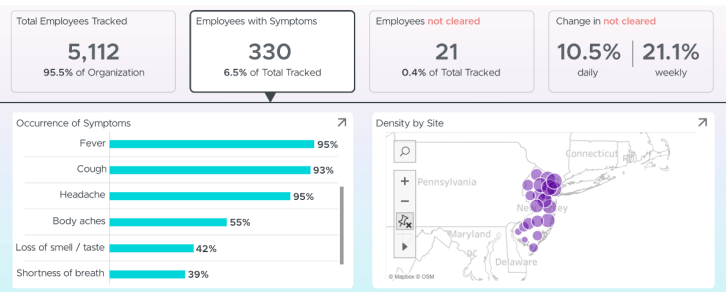

Responsive, employee-facing web-based app

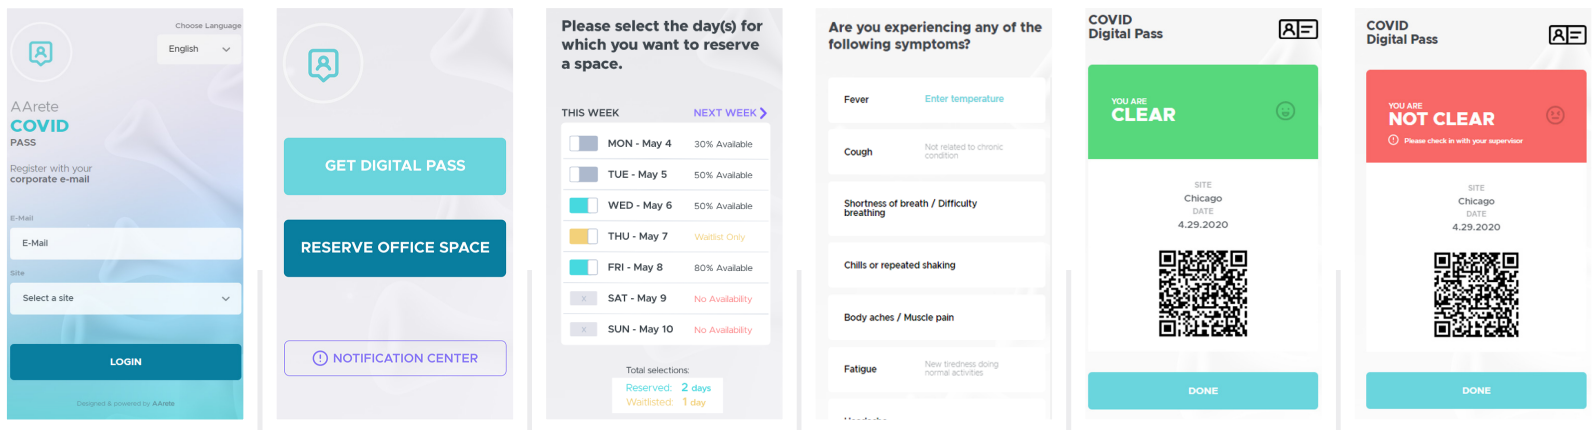

- **Health Pass:** CDC guidelines-based self-assessment and temperature tracker to monitor employee symptoms
- **Office Pass:** Reservation system for office entry and for managing limited work space capacity
- Modular, flexible architecture to allow for additional features like employee access badge integration, tracking testing status, contact tracing, etc. if required

Customizable Command Center

Secure, intuitive, employer dashboard

- Location and workplace-based trend analytics for easy reporting to regulatory authorities
- Set capacity for office and rules for reserving space to comply with government guidelines
- Symptoms reporting provides overview on health of workforce
- Location trend analytics
- Easy access for appropriate administrators, whether it be Human Resources team members or regulatory authorities
