

aiim Virtual Events

Our favorite elements of the AIIM Conference paired with the flexibility and convenience of the virtual environment. Typically 3 hours in length, Virtual Events include a series of short-form sessions from a combination of industry experts, analysts, end-users, and solution providers. These events provide a wealth of knowledge on one over-arching topic and connect the speakers and attendees in several interactive ways, including real-time polls, live Q&A, and more.

Sponsorship includes:

Your own 15-minute speaking session to highlight a customer success or case study

- 450+ opt-in leads
- Your resources available to registrants throughout event
- An on-demand replay of your speaking session to repurpose
- Member/Non-Member Cost: \$6,500/\$7,150 per event

Virtual Event Full Schedule
