Looking for a business partner, serial number, or sales person? The Enterprise Search has it all!

Just type in the key word and the results show up!

All the objects that contain the key word you entered are listed, visualizing clearly the different types of objects.

The screenshot shows a search result window titled 'Search Result' with a search filter for 'Sales Delivery'. It displays a list of 30 resources, with the first five visible. Too many results? No problem! You can easily customize the search results to optimize and narrow down the number of results.

The screenshot shows the SAP Search Results interface. At the top, it says 'Search Result' and 'Record 1-10 of 30 resources'. The search criteria are 'Sales Delivery' and 'BP Name'. On the left, there is a filter sidebar with categories like 'Business Partner (1)', 'Contact (2)', 'A/R Transaction (189)', 'Sales A/R Invoice (45)', 'Sales Delivery (45)', 'Posting Date', 'Delivery Date', 'Status', 'Document Date', and 'Sales Employee'. The main area displays a list of 'Sales Delivery' records, each with fields for BP Code, Status, Document Date, BP Name, Posting Date, Doc Number, Delivery Date, Total, and Remarks. For example, 'Sales Delivery - 1' has BP Code C20000, Status C(Closed), Document Date 2006-01-20, BP Name Norm Thompson, Posting Date 2006-01-20, Doc Number 1, Delivery Date 2006-01-20, and Total 14210.00000. At the bottom right, there are navigation buttons for 'What is LinkedIn?', 'Join Today', and 'Sign In'.
