Accurate addresses and contact person details are crucial for the day-to-day business. In printed documents, when sending e-mails, setting meetings etc. Considering the high importance of this information, and based on collected feedback, the contact persons details and the addresses info are enhanced, and aligned across all SAP Business One localizations.

In Business Partner Master Data > Contact Persons tab additional fields like “Country of Birth” and “Gender” are available:

The screenshot shows the SAP Business Partner Master Data interface, specifically the 'Addresses' tab. The top section contains fields for Code (Manual), Name (C20000), Foreign Name, Group (Construction), Currency (US Dollar), and Federal Tax ID (US25-987634). To the right, there is a table for 'Local Currency' with columns for Account Balance, Deliveries, Orders, and Opportunities, showing values like 1,662,910.79 and 6. Below this, there are tabs for General, Contact Persons, Addresses, Payment Terms, Payment Run, Accounting, Properties, Remarks, and Attachments. The 'Addresses' tab is active, showing a list of addresses on the left and a detailed view of the selected 'Ship to' address on the right. The detailed view includes fields for Address ID, Address Name 2, Address Name 3, Street / PO Box, Block, City, Zip Code, Country, State, Country, Tax Code, and Street No. The 'Address Name 2' and 'Address Name 3' fields are highlighted with a purple border. At the bottom, there are 'OK', 'Cancel', and 'Set as Default' buttons, and a 'You Can Also' link.

In the Addresses tab, the fields Address Name 2 and 3 are added:

Business Partner Master Data

Code: Manual V70000 Vendor

Name: SMD Technologies

Foreign Name:

Group: General Supplies

Currency: US Dollar
