Softengine, Inc.
Warner Center Towers
21800 Oxnard Street
Suite 1060
Woodland Hills, CA 91367

Benefits:

- Produce standardized document formats that widen your business market to thousands of trading partners.
- Increase cash flow by reducing your invoicing and payment cycles.
- Real-time inventory, order, and shipping information from SAP Business One.
- Eliminate the need for building individual point-to-point connections with each trading partner — saving considerable time and financial resources.

Features:

Integration: Don't wait — integrate! Automate order processing and reduce costly errors and dramatically shorten all your document and report processing.

Compliance X 4: Lingo's four levels of validation ensure excellent trading partner relations (and no chargebacks).

Drop Ship: Retailer Drop Ship programs can be complex. Lingo fulfills all your drop ship EDI requirements.

Packing 13 Ways: Lingo removes the challenges of packing ASNs efficiently whether it's multiple ASNs, pick and pack, cartons vs pallets, or standard! Whatever your retailer demands, you can do.

ASN Creating: For multi-order ASNs, or a single ASN per order, Lingo and Softengine EDI Universal Connector allows you to create and update all your ASNs in a snap. Shipping to multiple DCs? Lingo can auto create one ASN per DC in a click.

GS1-128 Labels (UCC-128 labels): Create and print compliant GS1-128 labels easily and accurately directly from Lingo. Lingo pre-populates labels with data from the ASN, enabling you to comply with your trading partners' requirements while making shipping more efficient. Lingo ensures label templates comply with trading partners' standards. All GS1-128 labels can be printed locally, or routed to another location (such as your warehouse) quickly and easily.
