

GOLDEN EAGLE INSURANCE

Mortgage Settlement Solutions

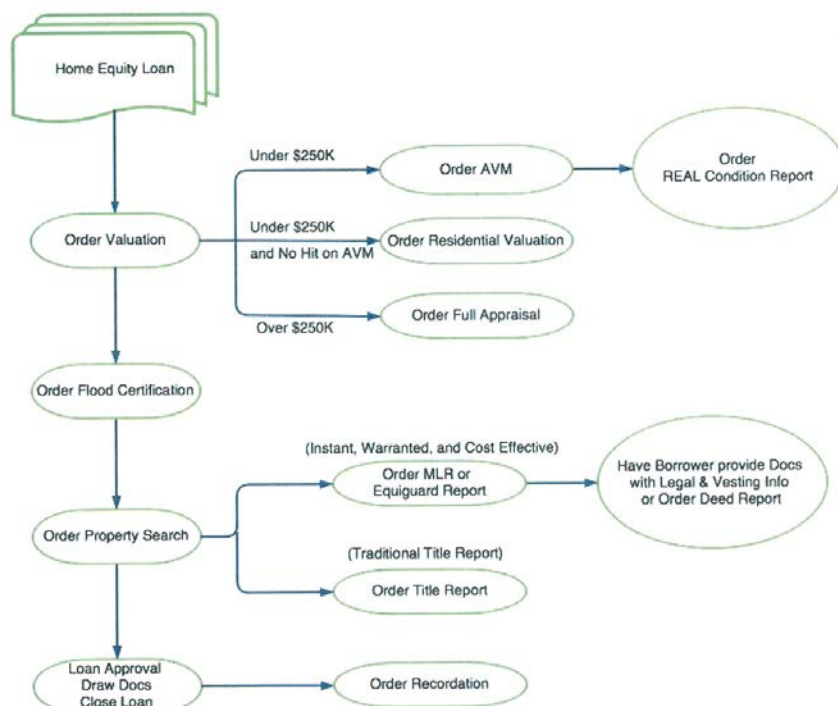

Our product suite is designed to streamline the lending process including Flood Determinations, Traditional and Alternative Valuation products, MLRs, and Title Services.

Using the latest technology and local resources, the data is clear, concise and consistent to provide fast and accurate information.

Lenders have access via a convenient electronic delivery system and fast turnaround time.

This bundled solution is catered toward saving time and increasing profitability, whether it's adding products that fit your portfolio or customizing the online system to maximize your efficiency. The lending process is streamlined by providing centralized 'Best in Class' customer service, order management and billing.
