

iVantage Performance Manager™

Cost, Quality, Effectiveness, Efficiency

Designed specifically to address the challenges of managing organizational-wide performance amid increasing complexity and accelerating change.

iVANTAGE PERFORMANCE MANAGER™

Cost, Quality, Effectiveness, Efficiency

As health systems grow, consolidate, scale and add to the breadth and depth of their clinical service offerings, as they attempt to leverage enormous investments in technology and compete in an ever-changing delivery landscape – complexity, and its accompanying costs, have never been greater.

iVantage Performance Manager™ is designed specifically to address the challenges of managing organizational-wide performance amid increasing complexity and accelerating change.

Healthcare leaders must be able to provide their organization with an integrated understanding of the true drivers of cost and the interdependencies of productivity, utilization, care management and clinical quality.

iVantage Performance Manager™ is an integrated performance management platform that moves beyond traditional benchmarking by providing clarity and line of sight into your current performance and opportunities for improvement. Built on top of the industry's most accurate, relevant and transparent data foundation, iVantage Performance Manager™ provides an intuitive, powerful and unrivaled user experience and is supported by a service model that creates buy-in, trust and engagement.

Rigorously accurate and transparent data provides visibility into your organization's performance across all dimensions – operational, clinical, quality and financial.

VISIBILITY

DELIVERING TRANSPARENCY, CLARITY AND INSIGHT

iVantage Performance Manager™ provides clear line of sight into enterprise-wide performance and your real opportunities for improvement. Designed to be cascaded throughout the organization – from system CEO to front line managers, we've engineered the platform to provide visibility into the impact and interdependencies of productivity, utilization, cost and clinical quality.

ACCURACY

COMBATING COMPLEXITY REQUIRES IRONCLAD ACCURACY

iVantage's proprietary data mapping and exacting methodology provides for comparative data transparency and accuracy that is unmatched in the industry. This rigor establishes essential trust, understanding and user buy-in.

iVantage Performance Manager™

Compare costs and quality to measure the value of healthcare within your facility, and to compare that value to other facilities.

ONGOING PARTNERSHIP DRIVING PERFORMANCE IMPROVEMENT

How do I achieve next-level operational, clinical and quality performance?

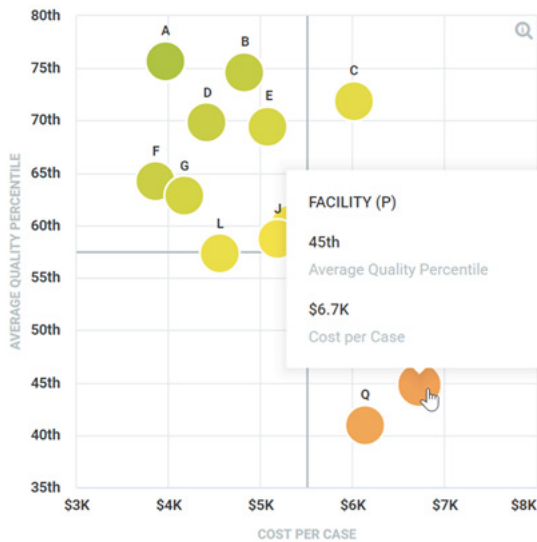

- Help leaders set ambitious but achievable goals that challenge the organization to move beyond the status quo.
- Facilitate institutional buy-in and trust by providing accurate and actionable information on cost and quality.
- Provide all levels of the organization with insights into the drivers of operational, clinical and quality performance. Increase efficiency, reduce cost and drive improvements in patient care.

How do I measure and manage performance across a large and growing System?

- Identify variation to help promote greater operational and clinical consistency across your expanding network.
- Provide transparency and line-of sight into performance across all system assets.
- Measure the efficiency and effectiveness of the system and regional shared services model.

How do I deliver data-driven continuous improvement and build organizational capabilities?

- Access Industry leading practices through iVantage KnowledgeWeb™, an integrated peer learning and collaboration platform, allowing healthcare staff from across the country and within systems, to share stories, successes, best practices, ideas and initiatives.
- Manage performance improvement through iVantage Playbook™ from initiative creation, through process steps to execution. Guided work-planning tools based on leading performance management methodologies support the development of initiatives.
