

## ARBUTUS ANALYTICS IN MANUFACTURING 1,000s OF USERS | 50+ COUNTRIES | GROWING FAST

Find out why many of the world's leading organizations rely on Arbutus Analytics and Continuous Monitoring Technology

### A FEW OF THE WAYS YOU CAN PUT ARBUTUS ANALYTICS TO WORK:

#### STOCK AND INVENTORY CONTROL

- + Statistically analyze usage and ordering to improve turnover
- + Report on stock and high value balances using any selection
- + Summarize and stratify turnover by stock item in any order
- + Test for duplicate parts, item numbers, prices, or descriptions
- + Identify obsolete inventory by sorted turnover analysis
- + Isolate and analyze high value transactions by value, group, etc.
- + Identify starting and ending period balances by class or group
- + Report on products in order of profitability (low-high, high-low)
- + Automatically summarize products by group, location, type, etc.
- + Analyze the difference between standard costs and actual costs
- + Isolate stock lines where the cost is greater than retail price
- + Extract products with zero quantities or zero prices
- + Check product reordering volume by item, warehouse, or vendor

#### CASH DISBURSEMENTS

- + Summarize cash disbursements by account, bank, group, vendor, etc.
- + Identify check requests, by bank, that exceed set or selected dollar amounts
- + Reconcile inter-company transfers by extraction or inclusion
- + Provide a complete audit trail for all disbursements by purchase order, vendor, etc.
- + Generate vendor cash activity summary for support in rebate negotiations

#### WORK IN PROCESS

- + Generate comparison of planned vs. actual labor, material, and time
- + Merge products on work orders and sales orders for net demand analysis
- + Summarize pending work orders by size and/or priority, for release to shop floor
- + Compare actual costs for a job to standard costs, detail, or variances
- + Age work orders to identify potential problem areas

#### ACCOUNTS RECEIVABLE

- + Identify same or similar invoices, credits or receipts in any order
- + Report and automatically age total receivables in any format
- + Identify high value credit notes, balances, and invoices
- + Extract variances in matching remittances to open receivables
- + Generate invoice summaries by customer, invoice, amounts, etc.
- + Report gaps in the sequence of invoices generated
- + Identify credits taken beyond discount terms of payment days

#### ACCOUNTS PAYABLE

- + Correlate vouchers or invoices posted versus purchase order amounts
- + Extract total posted invoices for the year for accurate vendor rebates
- + Isolate vendor unit price variances by product over time
- + Identify distributions to accounts not in suppliers' account ledgers
- + Reconcile check register to disbursements by vendor invoice
- + Reconcile selected vendors' payables posted against purchase orders
- + Extract invoices posted with duplicate purchase order numbers

## SALES ORDER CONTROL

- + Report on correlation between items shipped and items ordered
- + Identify items still backlogged beyond ship dates due
- + Show profit variance between items ordered and picked
- + Analyze open orders and invoices by customer for credit control
- + Isolate detail and average backlog by item, location, etc.
- + Manage delinquent orders by showing days past due, in any order

## SALES ANALYSIS

- + Generate sales and profitability reports by sales representative, product, or customer
- + Recap product sales by region, customer, category, etc.
- + Analyze sales trends by comparing current and previous periods
- + Identify top dollar volumes by products, customers, sales representative, etc.
- + Extract all sales data for audit by customer, product, region, etc.
- + Summarize sales performance over time by product, sales representative, etc.
- + Select any range of products for current and period-to-date analysis
- + Compare current product sales with booked sales for demand analysis/trends
- + Report on creditor balances aged in any format required

## SALARIES AND PAYROLL

- + Summarize and print payroll by selection criteria for audit review
- + Identify changes in exemptions, gross pay, hourly rates, salary amounts, etc.
- + Extract all payroll checks where the gross dollar amount exceeds set amount
- + Recap distributions to jobs, projects, etc., for audit and reconciliation
- + Report entries against authorization records for new or terminated employees
- + Compare and summarize costs for special pay, overtime, premium, etc.
- + Identify duplicate or missing payroll checks by check, bank, etc.
- + Compare time-card rates and pay to payroll and indicate variances

## PURCHASE ORDER MANAGEMENT

- + Extract pricing and receipt quantity variations by vendor and purchase order
- + Track scheduled receipt dates versus actual receipt dates summary and detail
- + Isolate purchase order types (blanket, release, drop-ship) for audit tracking
- + Identify duplicate purchase orders or receipts without purchase orders
- + Correlate purchase orders with jobs or projects in process
- + Reduce inventory by comparing projected receipts to available stock
- + Eliminate stale purchase orders by analyzing and reporting on partial receipts
- + Reconcile receipts by comparing accrued payables to received items
- + Analyze late shipments for impact on jobs, projects, or sales orders due
- + Audit receipt and ordering by selective reports by vendor, date, etc.
