"Part of the Job"

The Staggering Numbers Behind Workplace Violence in Healthcare

Overall U.S. workforce—9% of the overall U.S. workforce—makes up just 3%

but it experiences nearly as many violent injuries as all other industries combined

78% of emergency department physicians reported being the target of workplace violence in the past year

100% of emergency department nurses reported being the target of workplace violence in the past year

Incidents of serious workplace violence were 4X MORE COMMON in healthcare than in private industry.

The overall violent crime rate at U.S. hospitals last year increased compared to the previous year.

91% of all assaults were patient-on-staff or visitor-on-staff violence.

$3 or more is saved for each dollar invested in workplace safety.

Thousands of organizations across the country leverage Rave Mobile Safety’s dynamic communication platform for two-way communication with staff and visitors to prevent workplace violence and respond faster to emergencies.
