NOT JUST

"Part of the Job"

The Staggering Numbers Behind Workplace Violence in Healthcare

Overall U.S. workforce

9%

but it experiences nearly as many **violent injuries** as all other industries combined*

Healthcare makes up just **9%** of the overall U.S. workforce—

*U.S. Bureau of Labor Statistics report

IN THE PAST YEAR

78% of emergency department physicians reported being the target of workplace violence

**100%** of emergency department nurses reported verbal assault

Incidents of serious workplace violence were

4X MORE COMMON in healthcare than in private industry.*

*Incidents requiring days off for the injured worker to recuperate

Private Industry

Healthcare

The overall violent crime rate at U.S. hospitals last year increased compared to the previous year
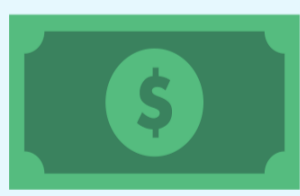

Patient-on-staff or visitor-on-staff violence accounted for

91% of all assaults

International Association for Healthcare Security and Safety (IAHSS) (2017)

$**3 or more is saved** for each dollar invested in workplace safety.

Liberty Mutual Insurance Company released a report: A Majority of U.S. Businesses Report Workplace Safety Delivers a Return on Investment.
