

## How It Works

### Create a free and secure

Facility Profile for your organization, adding key details about campuses, buildings, landlines, floor plans, contacts, and more.

### In an emergency,

9-1-1 can view and utilize information in the Facility Profile to coordinate a faster, more effective response.

### First Responders

will not only arrive sooner, but also have key information to act quickly and to improve situational awareness.

Additional services can provide even more protection for your employees, students, visitors, and property.

Smart911 protects individuals in your building and community with personal profiles that provide information to 9-1-1 in an emergency. Sign up for free at [www.smart911.com](http://www.smart911.com)

The first and only solution to join 9-1-1, first responders, and on-site personnel with the touch of a button. Learn more at [www.ravemobilesafety.com/panic-button](http://www.ravemobilesafety.com/panic-button)

## Protect Your Employees, Visitors, and Property

Provide public safety with critical information for faster emergency response.

## Why Should I Create a Rave Facility Profile?

Responding to facilities and buildings is challenging for first responders. A Smart911Facility Profile can significantly improve emergency response.

### Improving Responders' Ability to Locate an Emergency Incident

Floor plans and other critical data provided through Smart911Facility can significantly help streamline response.

### Managing Emergency Impact

The faster emergency responders can access building details, such as utility shutoffs and AEDs, the better they can minimize the impact to life and property.

### Enhancing Coordination Between Public Safety and Your Organization

Many facilities have unique internal emergency response procedures. Your Facility Profile can provide these to 9-1-1 and first responders during an incident at your location.

### Providing a Method for Keeping all of Your Facility Information Updated

Rave Facility provides you with an easy-to-use way of securely storing and backing up your facility's critical information.

## What Can Your Rave Facility Profile Include?

## Be Prepared for Any Emergency.

### In the event of a fire,

your Facility Profile will save time by providing firefighters building layouts and utility information.

### In a medical emergency,

gate codes and access points will be available, allowing EMS access to help treat the victim faster.

### In the event of an active shooter,

police can use building details, campus layouts, and key contacts to coordinate their response.
