

Real-Time Common Operating Picture for 9-1-1

- > **Supervisor view** of all 9-1-1 call traffic plus Smart911 assisted calls and facility data.
- > **Clearly visualize** real-time 9-1-1 call traffic and trends on a secure, web-based map.
- > **Consolidate and view** 9-1-1 calls from regional PSAPs.
- > **Empower supervisors** to join and support SMS texting sessions with callers.

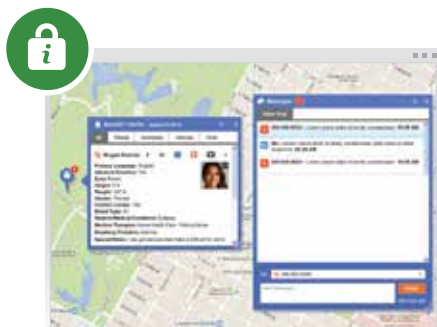

Rave Command View Helps You Respond Faster

Access critical facility data to speed response and improve responder safety.

React and respond faster with early notification on Rave Panic Button™ calls, especially during call overload situations.

Access key caller data from Smart911®. You can also send 2-way texts to all mobile callers and record notes on all calls.

Easily navigate from map or ticket menu to call details and additional data points.
